

Welcome to Accessibility Services! We provide accommodations for students and visitors with disabilities, including temporary conditions and pregnancy accommodations. Our goal is to make Utah Valley University an accessible campus for individuals with disabilities by facilitating academic success and advocating for their educational rights.

The Americans with Disabilities Act (ADA) prohibits discrimination against people with disabilities and guarantees that all students with disabilities have the same opportunities as non-disabled students. ADA accommodations may help when a disability creates obstacles that make it difficult to access an education or resources on campus. Learn more about qualifying conditions, how to receive a diagnosis, and available accommodations on our [Getting Started](#) page.
