VISION STATEMENT

Utah Valley State College is committed to maintaining the responsiveness and flexibility of its historical mission, while becoming a highly respected state college offering a comprehensive range of baccalaureate degrees and programs. UVSC anticipates the time when it will also respond to community needs for graduate courses and degrees as a metropolitan university.

MISSION STATEMENT

Utah Valley State College is a community of learners where every individual is welcomed, encouraged and supported. We strive for excellence in liberal arts and sciences, the professions, and applied technology education. UVSC offers a full spectrum of educational opportunities including college preparation and certificates, associate and baccalaureate degrees and advanced professional education. Our programs prepare students for career success, personal enrichment and lifelong learning and enhance their ability to contribute to society.

Utah Valley State College values its students, faculty, staff and community and affirms the value of learning and scholarship, excellence and innovation, ethics and integrity, academic freedom, diversity and international understanding.

STATEMENT OF VALUES

Our Student Community

We are deeply committed to the success of each student associated with Utah Valley State College. We value our students as our major focus and first priority. We foster this value through support of vigorous academic programs, vibrant student support and extracurricular programs and vital student governance and voice.

Our Campus Community

We value our faculty and staff. We respect their diverse life experiences, encourage their individual professional development and appreciate their contributions to our campus and community. We affirm that all members of the campus community have a legitimate voice in matters of policy through shared governance.

The Community We Serve

We honor the trust placed in us by the community to respond to its educational needs. We take pride in developing partnerships that contribute to the development of the individual and the local, state, and global community. We recognize our obligation to prepare an educated citizenry and a skilled workforce.

Learning and Scholarship

We value a philosophy of lifelong learning and scholarship for our students, faculty and staff. We foster this philosophy through a broad array of academic, professional and experiential learning opportunities that emphasize quality teaching, learning and scholarship.

Excellence and Innovation

We pursue excellence in all endeavors. We celebrate the entrepreneurial spirit and seek to achieve our educational mission in an innovative, timely and enterprising manner.

Ethics and Integrity

We value ethics as an integral part of education. We engage members of the campus and community in experiences which encourage a broader understanding of ethics across disciplines, professions, and communities. We believe honor and integrity are essential in our learning community.

Academic Freedom

We embrace an academic climate conducive to the free examination of ideas. We encourage thoughtful debate and civil discourse and respect the right and responsibility of faculty and students to explore all topics relevant to the educational experience.

Diversity and International Understanding

We seek to establish a more diverse campus community. We value the contribution each individual makes to our campus, community and world. We value the diversity inherent in an open enrollment institution serving an increasingly multicultural community of learners. We recognize the unique international capacities and interests among our campus community and support experiences leading to an appreciation and understanding of our global society.

HISTORY OF UTAH VALLEY STATE COLLEGE

Utah Valley State College, Orem, is situated in the heart of Utah County. Nestled beneath mountains on all sides, the name Utah Valley has become synonymous with Utah County and is used interchangeably throughout the state. With a population of approximately 370,000, it is the second largest county in the State and includes twenty incorporated cities. The College serves primarily the Mountainland District of students with Utah County residents comprising over sixty-five percent of its enrollment.

*The College was established when the Utah State Legislature passed an appropriation of \$100,000 for the biennium of 1936-38 for vocational education. Central Utah residents, who had been supported by government funding, wanted to upgrade their skills in order to obtain better jobs, and many enrolled in vocational classes administered by the school districts. However, the school districts were not able to give adequate supervision to organize, conduct, coordinate, and supervise adult programs, and in the spring of 1938, **Hyrum E. Johnson** of Provo was appointed supervisor of vocational education for Utah and Heber Valleys.*

*In the fall of 1941, the scattered classes throughout the two valleys were moved to a central location in south Provo, where the staff and students enthusiastically welcomed the Fairgrounds Campus. Provo School District assumed the financial supervision of the new school and both federal and state monies flowed through the District to the school. It became imperative that the school have proper identification and the name **Central Utah Vocational School** was selected. With the advent of World War II, most of the school's operating budget came from federal government funds for war production training.*

*The birth of the school as a state institution was March 15, 1945, when Governor Herbert B. Maw signed a bill appropriating \$50,000 to operate for the biennium of 1945-47. A second bill was introduced and adopted in 1947 making the school a permanent state institution without any cut-off date. In 1946 **Wilson W. Sorensen** was appointed director of the school by the Utah State Board for Vocational Education and was the chief executive officer until June 1982.*

In 1948 a new site, located between 1200 and 1400 North on 150 East in Provo, was obtained. The site was purchased by the four school districts (Alpine, Nebo, Provo and Wasatch) as well as Provo City and Utah County, with the understanding, if the property were given to the school; the state would appropriate the money for buildings. The location of the campus was considered ideal because of accessibility to students from Provo High School, the Vocational School, or Brigham Young University.

*In March 1953, the name of the school was changed from Central Utah Vocational School to **Utah Trade Technical Institute**. In March 1967, the name was again changed, this time to **Utah Technical College at Provo**. In February 1966, the Utah State Board for Vocational Education approved granting Associate of Applied Science Degrees and on July 14, 1967, the State Board approved offering general education courses. In August of 1971, the Associate of Science Degree was approved.*

Enrollment growth became so immense, the Provo Campus was no longer adequate and a search for a new site began. Several locations in Provo and Orem were reviewed and a decision was made to purchase 185 acres in southwest Orem. This location was chosen because of its landscape, excellent traffic flow, and accessibility. The business education building, student center, heating plant, and auto trades building were occupied at the beginning of the 1976-77 school year.

In 1974 the Associate of Science Degree was discontinued, but approval was given by the Board of Regents to again award the degree in December 1980. In 1981 the Legislature approved granting an Associate of Science Degree in general education on a three-year probationary basis with permanent approval in 1985.

*On June 1, 1982, Wilson W. Sorensen retired as President, and the Board of Regents selected **Dr. J. Marvin Higbee** as the new President.*

Since the move to the Orem Campus, the College continued to grow with a trades building, learning resource center, athletic center and administration building added. As classes and service facilities were moved from Provo to Orem,

the vacated areas were filled by new programs, thus maintaining a split campus. A new science building was occupied in fall 1989. An extensive addition to the Learning Resource building was completed for use in 1992.

Beginning fall quarter 1985, articulation was completed with Weber State College to offer a four-year bachelor's degree in electronic technology while students continue their advanced courses on this campus. In winter quarter 1987, the same opportunity was offered students in the computer information systems program.

*In 1987, the legislature approved a name change better reflecting the location and mission of the College--**Utah Valley Community College.***

*In October 1987, Dr. J. Marvin Higbee resigned as President, and **Dr. Lucille T. Stoddard** was appointed Acting President until a new chief executive officer was selected.*

***Dr. Kerry D. Romesburg** was appointed President of Utah Valley Community College on July 17, 1988.*

The Board of Regents approved the Associate of Arts Degree in 1987. In 1989 the Regents and State Legislature approved funding for the Associate Degree Nursing program.

On October 21, 1988, the College was granted permission by the State Board of Regents to convert from the quarter to the semester calendar system. This change became effective fall semester 1990.

A four-year accounting program became available to students beginning fall semester 1990, through Utah State University.

In 1989, the College added an International Studies Center to coordinate exchange programs, bring international students on campus, and assist in giving faculty exchange opportunities. During this same period, Utah Valley Community College became one of the first community colleges in the United States to sign an exchange agreement

with Soviet Russia. Exchange agreements were reached with Central America and Caribbean countries, China, Hong Kong, Japan, Taiwan and Germany.

On August 1, 1991, Dr. Sharon Staples was appointed Director of the new University Center and assumed responsibility for bachelor's degree programs in accounting, criminal justice, and electronic engineering technology. These programs were offered on the UVSC campus, and degrees were awarded through Utah State and Weber State Universities.

On January 17, 1992, the Utah State Board of Regents directed Utah Valley Community College and the Commissioner of Higher Education to develop a proposed model or plan for offering a limited number of high demand bachelor's degree programs directed to the needs of the region. The Regents' action directed that the model include the following: full data on costs with a 5-year projection, enrollment projections, program offerings, deployment of faculty, quality safeguards, accreditation processes, library and other requirements.

*A five-year, renewable consortium agreement was established between **Utah Valley Community College** and the **Kiev College of Hotel Management**. The program began in September 1992 in Kiev, Ukraine.*

*On July 1, 1993, the Board of Regents changed the name of the College to **Utah Valley State College**, and UVSC was given provisional accreditation by Northwest Accrediting Association to offer four-year degree programs in Business Management, Computer Science and Information Systems, and Technology Management. The mission of the college was expanded to include four-year degree programs. At the same time, UVSC became the first U.S. institution to receive accreditation for programs offered in the former Soviet Union.*

During the 1993-94 school year, construction was completed on the Student Center Expansion and the new Theater. The Northwest Accrediting Association granted accreditation on June 22, 1994.

The spring of 1995 saw the retirement of Dr. Tom Perkins as Women's Basketball Coach. During a 12-year span, his teams compiled 275 wins and 46 losses, the highest winning percentage of any active junior college coach.

On December 14, 1995, the Northwest Association of Schools and Colleges granted full accreditation for all programs offered by the College, including the baccalaureate programs.

The Special Events Center was completed in January of 1996. The facility was named the David O. McKay Events Center after a multimillion-dollar anonymous donation. The arena is a multi-purpose facility that will not only meet the need for physical education class space, but also is home to many community events. In January of 1997, the single game attendance record for any National Junior College Athletic Association team was set. The NBA-like atmosphere was witnessed by 8,063 fans.

The fall semesters of 1996 and 1997 brought Elementary Education and Hospitality Management as new four-year degrees, respectively. A two-year Dental Hygiene program was also added in January 1998.

The new Mountainland Advanced Technology Center (MATC) building was completed in May 1998; they were previously housed at the Provo Campus. The MATC is a job-preparation and skills upgrade source for the Mountainland region.

In the fall of 1999 UVSC saw enrollment of over 20,000 students. UVSC also began construction on a new Information Science Building. The buildings first and second floors began holding classes in the fall of 2001. The third and fourth floor were completed and occupied by November of 2001.

The 2000-year was a great year for women's athletics. The women's softball team brought home UVSC's first national championship. Jed Gibson was named the national coach of the year for women's cross-country and Sam Atoa was named the national coach of the year for women's volleyball.

In the summer of 2000, construction to expand the Student Center began, and UVSC purchased and remodeled the Utah County Journal Building on the southeast corner of campus.

The summer of 2001 held several campus construction projects including a new roundabout and road located on the southeast corner of campus and four new parking lots were completed. Plans were underway for a Classroom Building to be located on the north side of the PE Building. Construction is scheduled to begin in March 2002 with a completion date of August 2003.
