Preface

The Fact Book is an annual publication of Institutional Research at Utah Valley State College. The purpose of the Fact Book is to translate accumulated data into useful information for those within and outside the college.

It should be noted that data extraction methods used for this Fact Book are consistent with those used in previous years. However, as improved means of obtaining accurate information are developed, reported information in the future may differ from what is represented here.

Every effort has been made to include within this publication the data most often requested; however, of necessity, the information presented herein is limited. You can find additional information and a complete listing of our research online at www.uvsc.edu/ir/. We invite the users of this book to freely comment on what information they would like to have included in future editions of the Fact Book. Please contact our office, (801) 863-7923, with your suggestions.

Institutional Research wishes to thank the individuals and departments who have contributed to this publication.

General Information

Mission Statement

Utah Valley State College is a state college comprised of two interdependent divisions. The lower division embraces and preserves the philosophy and mission of a comprehensive community college, while the upper division consists of programs leading to baccalaureate degrees in areas of high community demand and interest.

Utah Valley State College is dedicated to providing a broad range of quality academic, vocational, technical, cultural, and social opportunities designed to encourage students in attaining their goals and realizing their talents and potential, personally and professionally. The college is committed to meeting student and community lower division and upper division needs for occupational training; providing developmental, general, and transfer education; meeting the needs for continuing education for personal enrichment and career enhancement; and providing diverse social, cultural, and international opportunities, and student support services.

History of the College

In 1941, the nation was slowly recovering from the depression of the 1930's. The shadow of war was creeping closer, and the need for arms and ammunition by the allied forces demanded skilled craftsmen. Many citizens had benefited from the federal work programs during the depression but needed more training to qualify for better jobs. Vocational classes were taught at various shops and businesses throughout Utah and Heber Valleys under the direction of the State Vocational Office.

In fall 1941, under the direction of Hyrum E. Johnson, the vocational training courses from the Utah and Heber Valleys were moved to a central location in south Provo and were named Central Utah Vocational School.

After World War II, 90 percent of the school's budget was lost with the cancellation of the war production training funds. A bill was introduced in the 1943 Utah Legislature to make the school a state-supported, two-year vocational school. The bill, although approved in the House, was defeated in the Senate. Cutbacks followed and fewer classes were offered until the college received a \$50,000

operating costs appropriation for 1945 through 1947. The appropriation was strongly opposed by local two-year colleges and the two local universities, because it posed a threat to the money those institutions received from the legislature. In 1947, the school received funding as a permanent state institution.

During the summer of 1945, Johnson was given a leave of absence. Following a short transitional period, Wilson W. Sorensen, former purchasing agent for the school, was appointed director. Sorensen was instrumental in obtaining a new 13 acre site for the school in Provo, purchased by Provo City, Utah County, and the four local school districts with the understanding that the state would finance new college facilities.

In 1952, the state appropriated \$400,000 for the first phase of the Provo Campus. The complete facility was built in three phases and completed in 1963. The campus was designed for 1,200 students. In 1961, enrollment was nearing 1,000 students; by 1971, it increased 100 percent to nearly 2,000, far more than the campus could accommodate.

Growth brought many changes to the College. During the Sorensen years, the name of the college changed several times to reflect these dynamics. In 1963, it changed from Central Utah Vocational School to Utah Trade Technical Institute. In 1967, it became Utah Technical College at Provo, and with this change, the college was first given authority to confer associate degrees. Demand for more space sent college officials searching for land. One hundred and eighty-five acres of farm land were purchased in southwest Orem adjacent to Interstate 15. The first phase of the new campus used state and student funds for the first buildings and a \$1.5 million federal grant for landscaping. This initial campus was dedicated in March 1977. A Learning Resource Center and Trades Building were added to the campus as soon as the state made funds available.

In 1982, Sorensen retired after 41 years of service and 37 years as president. J. Marvin Higbee, former president of Snow College in Ephraim, Utah, was named the third president of the College. President Higbee took the challenge of broadening the image and scope of the College by offering expanded educational opportunities to

all facets of the community. In 1987, the legislature changed the school's name to Utah Valley Community College to reflect this expanded mission.

The campus continued to expand under President Higbee. Not only were there major building projects initiated but also several education programs were added to help the College keep pace with local demand. President Higbee also emphasized the need for community support of the institution by focusing the involvement efforts of the Development Office, Utah Valley Community College Foundation, and the Alumni Association. In 1988, Lucille Stoddard, Vice President of Academic Affairs, was appointed interim president during the search for a new president.

Kerry D. Romesburg was appointed president in 1988, and led the College into its era of incredible growth. President Romesburg spent much time analyzing the needs of the students and directed his efforts toward filling those needs. With the student in mind, President Romesburg initiated the conversion of the college to a semester calendar, the first state school to do so. Also under

Romesburg's direction, emphasis on international education, arts and humanities, and short-term training was instilled throughout the curriculum. In his attention to international relations, UVCC became one of the first community colleges to sign an exchange agreement with Soviet Russia. More exchange agreements were created with China, Hong Kong, Taiwan, and Germany.

Romesburg also administered a charge to keep classes to a 34-student maximum, to better focus on the student. He taught classes on campus, and although the academic emphasis of the College changed, Romesburg never lost sight of the valuable trades and vocational training UVCC offered.

During Romesburg's tenure, which stretched from 1991 to 2002, student enrollment skyrocketed. Some 8,700 students walked the halls in 1991, while more than 23,000 were enrolled in 2002.

In 1992, the Utah System of Higher Education and the Board of Regents proposed an initial offering of four-year degrees at UVCC. Romesburg jumped at the opportunity to increase the College's offerings. Business Management,

Computer Science and Information Systems, and Technology Management were the first three bachelor degree programs approved.

After noting the institution was growing and expanding its mission and focus, the Board of Regents changed the name to Utah Valley State College in 1993. The school received its provisional accreditation from the Northwest Accrediting Association. Additionally, a five-year consortium agreement was established between UVSC and the Kiev College of Hotel Management in the Ukraine, and UVSC became the first institution in the United States to receive accreditation for programs offered in the former Soviet Union. Official accreditation was awarded June 22, 1994.

The rest of the 1990's saw significant growth for the new State College. Bachelor degree after bachelor degree was added to the institution's offering plate, and by 2003, the grand total was 33. More than 50 associate degrees were also offered, along with significant certifications, diplomas, and concurrent enrollment programs. Today the College offers 57 bachelor's degrees and has plans for more additions.

The Center for the Study of Ethics was created in 1993. It better focused the Ethics Across the Curriculum Program and brought prestigious faculty to the College. UVSC created a Society for Ethics Across the Curriculum, an institution which aims to support ethics educators in the United States, Guam, and Australia. With close to 250 international members and an academic journal Teaching Ethics, collected and edited by the school, UVSC caused a ripple in the international ethics pond. In 2001, it was awarded the Theodore M. Hesbergh Award, a \$30,000 cash prize rewarding innovative ethics curricula that inspired similar initiatives at other schools. In 1996, the David O. McKay Events Center for special events was completed and dedicated on the Orem Campus. UVSC, a member of the National Junior Collegiate Athletic Association, saw not only many UV athletic events but also many community trade shows, concerts, and conferences. In January 1997, the single-game attendance record for a NJCAA team was set at 8,063 in the McKay Events Center.

The late '90s and the early 2000s saw much construction on campus. UVSC announced a Liberal Arts building to

be completed in August 2003, and the Utah County Journal Building was purchased on the southeast side of campus and remodeled.

The School of Education was announced in 2002 as the eighth school of study at UVSC. Other schools are the School of Business, School of Continuing and Adult Education, School of General Academics, School of Humanities, Arts and Social Sciences (HASS), School of Science and Health, and School of Technology and Computing.

Other campus expansions included the addition of the Wasatch Campus, UVSC in Heber, Utah. UVSC currently has campus offerings at the North and South Valley Education Centers in Lehi and Spanish Fork, respectively, and up until Fall 2006 the University Mall in Orem. Additionally, UVSC opened a Woodbury Art Gallery at the University Mall, displaying contemporary works of art not necessarily affiliated with the school.

In 2002, Romesburg accepted another administrative position and resigned his position as president of UVSC. Lucille Stoddard, Vice President of Academic Affairs, was

again appointed interim president during the search for a new president. The fifth president, William A. Sederburg, was selected from an excellent field of candidates. Sederburg previously led Ferris State University in Big Rapids, Michigan--a school with both undergraduate and graduate programs.

In that same year, the school was given a provisional status in the NCAA Division I athletic competition. UVSC started Division I play in the 2003-2004 school year. A new wrestling program was added and is the only one of its kind in the state of Utah. Other intercollegiate programs at UVSC are men's baseball, basketball, cross country, golf, and track and field, and women's basketball, cross-country, golf, soccer, softball, track and field, and volleyball. A new baseball stadium was dedicated in 2005. Also in 2005, what had been the Vineyard Elementary School was remodeled to house the School of Education and several other programs.

In September of 2006 ground was broken for a new 190,000 square foot Digital Learning Center/Library. Other work is moving forward according to the new

Physical Facilities, Students Services, IT, Academic, and Athletic Master Plans.

One of President Sederburg's major accomplishments has been to develop a strategic planning model which aligns planning with budgeting and accountability. Also under President Sederburg's leadership, the college has been preparing for university status. In February of 2007 the Utah State Legislature unanimously voted to make Utah Valley State College a university effective July 1, 2008.

A good predictor of the future of the college is a look into the past. Service, change, and growth were the keywords during the first 65 years of the school that is now Utah Valley State College soon to become Utah Valley University. These same ideals will take root in the school's future, as enrollment continues upward and tests the resourcefulness of UVSC employees and its community. As the College continues to grow, more than 80% of its students still come from Utah, as well as students from every state and from 55 countries (including the US).
