

CIVIC THOUGHT & LEADERSHIP INITIATIVE

Created by HB 327 in 2021, CTLI is a nonpartisan effort to educate students and citizens, support teachers, conduct research, and foster civil discourse in these spaces:

ELEMENTARY & SECONDARY SCHOOLS

Teachers from school districts across Utah receive professional-development training in civics locally, regionally, or at UVU campus.

Junior-high and high-school students hone their civics knowledge and participation at CTLI-hosted competitions sponsored by *We the People* and the MyImpact Challenge.

THE UNIVERSITY CAMPUS

Conferences and events bring K–12 teachers and students to UVU to build knowledge of our founding documents and system of government.

The Constitutional Government, Civics & Law M.A., based at UVU and Oxford, helps teachers gain education and content expertise.

UVU undergraduate fellowships give students opportunities to work on civic research, conferences, and other projects.

IN THE COMMUNITY

With America250 and other partners, CTLI spearheads events and education programs to help citizens mark 250 years of self-government in the U.S. since 1776.

The Visible Hand project and Learners with Littles conduct outreach to business owners and parents/children, respectively, to build bridges of knowledge and civility.
