

UVU focuses on student success, engaged learning, rigorous academic programs and faculty-mentored research. It is transforming higher education by making it more affordable and accessible to students of all backgrounds.

Total students: 39,000+ (the largest college in Utah)  
Origin: from all 50 states and 74 countries  
Male: 53%  
Female: 47%  
Faculty: 1,500+ (22:1 student to faculty ratio)  
Athletics: NCAA Division I

Located at the base of the Wasatch Mountains, many students choose UVU for its ideal location as well as superb academics.

# Electrical Engineering

One of UVU's newest 4-year Engineering Degrees

The Electrical Engineering (EE) Program at UVU is an engaging and challenging major that prepares students for exciting careers and graduate programs in Electrical Engineering.

Students begin their study by completing a series of foundation courses in Math, Physics, Computer Science and Engineering. After successful completion of these foundation courses, students will apply and be accepted to the Electrical Engineering Program before enrolling in upper division (3000 level or higher) major courses.

Applications for admission to the Electrical Engineering program are accepted until two weeks prior to the start of a new semester. However, we encourage you to apply as early as possible.

UTAH VALLEY UNIVERSITY

The Bachelor of Science in Electrical Engineering provides a broad foundation in electrical engineering through combined classroom and laboratory work and prepares students for entering the profession of electrical engineering as well as further study at the graduate level.

The core courses will provide students with a strong background in mathematics, physical science, and fundamentals of engineering.

The mission of the electrical engineering program at Utah Valley University (UVU) is to provide a strong engineering foundation with a hands-on component to prepare professionally competent electrical engineers of integrity who serve the engineering needs of the region and the globally interdependent community. The program will also prepare students for further studies at the graduate level should they decide to do so.
