- Homeschool students without an accredited school transcript may substitute an ACT composite score of 22+ for academic courses, or 19+ for CTE courses.

ACCUPLACER exams no longer have a math section. All new testing for math placement must be done by ACT, ACT-R or ALEKS. Qualifying math scores from previous ACCUPLACER exams may be used if the scores are less than 2 years old.

# TESTING INFORMATION

## Concurrent Enrollment & Live Interactive Courses

### ACT

UVU accepts official ACT exam or ACT-Residual exam scores for placement testing. Official scores must be received by the Concurrent Enrollment Office **PRIOR** to the prerequisite deadline.

### ACCUPLACER (English Placement)

The exam consists of two sections: Reading and Writing. The ACCUPLACER exam is administered at the UVU Testing Center. Up to three retakes are allowed in a two-week period with at least one day between each attempt.

### ALEKS® (Math Placement)

ALEKS® allows students to take an online, practice math placement assessment on their own to determine their current level of readiness. After the initial practice assessment, the ALEKS system will map out which areas you need to improve in to place into your targeted math course. Students can continue to learn and refresh on math topics in the ALEKS learning modules in between both their practice and official placement assessments. ALEKS® can be accessed anywhere the internet is available. A subscription fee is required for concurrent enrollment students and can be set up through their myUVU account. For help setting up an account follow our step by step [ALEKS Account Set Up Guide](#). Each official placement attempt taken in the testing center will cost \$5.

A school or government photo ID is required for testing.

Visit [www.uvu.edu/testingservices](http://www.uvu.edu/testingservices) for additional testing information.
