Independent Auditor's Report

To the Board of Trustees, Audit Committee and Dr. Astrid Tuminez, President Utah Valley University

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Utah Valley University (University) and its discretely presented component unit foundation, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements present fairly, in all material respects, the financial position of the University and its discretely presented component unit foundation as of June 30, 2023, and the changes in its financial position and, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Utah Valley University Foundation (the Foundation), a discretely presented component unit, as of June 30, 2023. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Foundation, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

Emphasis of Matter

As described in Note 1, the University implemented Government Accounting Standards Board (GASB) Statement 96 Subscription-Based Information Technology Arrangements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the University's internal control. Accordingly, no such
 opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

• conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the Schedule of the Proportionate Share of the Net Pension Liability (Asset), the Schedule of the Contributions to the Utah State Retirement Systems be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2024 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Office of the State Auditor

Office of the State auditor

Salt Lake City, Utah January 25, 2024

INTRODUCTION:

The following discussion and analysis provides an overview of the financial position and results of activities of Utah Valley University (the University) for the year ended June 30, 2023, with comparative information for the year ended June 30, 2022. This discussion is prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow these sections.

The Utah Valley University Foundation (the Foundation) is a separate but affiliated non-profit corporation. The accounts of the Foundation are reported as a discretely presented component unit in the University's financial statements.

FINANCIAL HIGHLIGHTS

- The University's net position increased by \$17.4 million during the fiscal year and net position at June 30, 2023 was \$716.0 million.
- The University added \$53.9 million in new buildings and building improvements.
- Revenues for auxiliary services increased by \$5.3 million or 65.1% due to opening new dining options after the remodel of the student center was completed.
- Federal grant revenue decreased by 49.3 million or 36.8% due to less HERF funds being available in 2023.
- The University implemented GASB Statement 96 on subscription-based information technology arrangements.

OVERVIEW OF THE FINANCIAL STATEMENT AND FINANCIAL ANALYSIS

The financial statements are prepared in accordance with GASB principles. Three financial statements are presented: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

STATEMENT OF NET POSITION

The Statement of Net Position presents financial information on all of the University's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the University is improving or deteriorating. The Statement of Net Position is a point-in-time financial statement. The purpose of the Statement of Net Position is to present to the readers of the financial statements a fiscal snapshot of the University. The Statement of Net Position presents end-of-year data concerning assets (current and noncurrent), liabilities (current and noncurrent), deferred inflows and outflows, and net position.

From the data presented, readers of the Statement of Net Position are able to determine the assets available for continued operations of the University. A determination can also be made as to the debts owed to vendors, investors, and lending institutions. Finally, the Statement of Net Position provides a picture of resources available for expenditure by the University.

Net position is divided into three major categories: net investment in capital assets, restricted, and unrestricted. The first category, net investment in capital assets, provides the University's equity in property, plant, and equipment owned by the University. The second net position category is restricted, which is divided into two subcategories, nonexpendable and expendable. The corpus of nonexpendable restricted net position is only available for investment purposes. Net position resources categorized as expendable restricted are available for expenditure by the University but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted net position. Unrestricted net position is available for expenditure for any lawful purpose of the University.

Statement of Net Position, Condensed

	 2023		2022	 Change	% Change
ASSETS					
Current assets	\$ 125,785,773	\$	145,939,837	\$ (20,154,064)	(13.8%)
Noncurrent assets	107,302,286		111,326,072	(4,023,786)	(3.6%)
Capital assets, net	 603,695,974		592,377,312	11,318,662	1.9%
Total assets	 836,784,033		849,643,221	 (12,859,188)	(1.5%)
Deferred Outflows					
of Resources	7,730,964		4,064,056	3,666,908	90.2%
LIABILITIES					
Current liabilities	59,882,041		44,241,164	15,640,877	35.4%
Noncurrent liabilities	 62,765,652		74,514,885	 (11,749,233)	(15.8%)
Total liabilities	 122,647,693		118,756,049	 3,891,644	3.3%
Deferred Inflows					
of Resources	5,879,697		38,822,269	(32,942,572)	(84.9%)
NET POSITION					
Net invested in capital assets	530,631,438		520,574,817	10,056,621	1.9%
Restricted expendable	7,360,195		9,218,271	(1,858,076)	(20.2%)
Unrestricted	 177,995,974		166,335,871	 11,660,103	7.0%
Total net postion	\$ 715,987,607	\$	696,128,959	\$ 19,858,648	2.9%

The decrease in current assets held by the University of \$20.2 million is mainly due to a decrease in receivables of \$16.8 million due to a decrease of federal grant receivables and also the purchase of investments. Short-term investments decreased by \$5.3 million. Cash and cash equivalents make up 63.7% of the current assets balance with \$80.1 million. A portion of cash, \$10.9 million, is considered restricted due to restrictions placed on how the cash can be spent. In this case, the restrictions come from granting agencies, such as the federal government.

Noncurrent assets were similar to the prior year, however, there were significant changes to some of the asset categories from the prior year. Depreciable capital assets increased by \$37.2 million and

noncurrent investments increased by \$25.3 million. Those increases were offset by decreases in nondepreciable capital assets of \$33.8 million and \$27.1 million in the net pension asset. The increase in depreciable capital assets was mostly due to a buildings being completed and capitalized. The remodel of the Sorensen Student Center was completed at a cost of \$28.1 million and the new Institutional Advancement and Alumni building was completed at a cost of \$12.7 million. These buildings also represent the major change in nondepreciable capital assets as they were removed from construction in progress. Noncurrent investments increased due to the University recognizing opportunities to invest in higher yield investments. Noncurrent restricted cash decreased by \$2.3 million due to bond reserve accounts being closed when the bonds were paid off.

The University implemented GASB 96 – *Subscription-based Information Technology Arrangements*, which capitalizes software subscriptions. These assets are included in the capital asset section of the statement of net position and add \$8.5 million to capital assets. The change in capital assets totaled \$25.3 million, excluding depreciation. This net increase in capital assets was offset by a net change in depreciation of \$21.9 million, which nets to an increase in capital assets of \$3.4 million.

The University participates in Utah Retirement Systems (Systems) and we report our portion of the assets, deferred outflows, liabilities, and deferred inflows of the Systems. The net pension asset reported to us by the System decreased by \$27.1 million (99.0%) to \$0.3 million. Deferred outflows of resources increased by \$3.7 million (90.2%) from the previous year and the deferred inflows of resources decreased by \$32.9 million (84.9%) to \$5.9 million. In order to record these changes, it was necessary for the University to record a reduction in benefit expense of \$8.9 million.

Current liabilities increased by \$15.6 million or 35.4% compared to the prior year. The most significant change was in the current portion of Bonds, notes, leases, and SBITA's payable, which increased by \$11.9 million from the prior year, mostly due to a balloon payment on a related party note payable that is due early in fiscal year 2024. The largest portion of current liabilities is accrued liabilities (17.2%) which includes payroll and benefit related liabilities followed by the current portion of bonds, notes, leases, and SBITA's payable (13.5%).

Noncurrent liabilities decreased by \$11.7 million or 15.8%. The decrease is due to reductions in bonds, notes, leases, and SBITA's payable of \$12.9 million and were offset by increases in unearned revenue, the net pension liability, and accrued liabilities. Bonds, notes, leases, and SBITA's make up 89.6% of long-term liabilities.

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

Changes in total net position, as presented on the Statement of Net Position, are based on the activity presented in the Statement of Revenues, Expenses, and Changes in Net Position. The purpose of the statement is to present the operating and nonoperating revenues received by the University, the operating and nonoperating expenses paid by the University, and any other revenues, expenses, gains, or losses of the University.

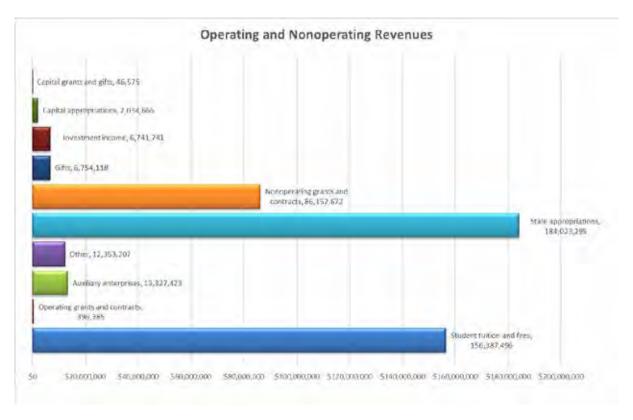

Generally speaking, operating revenues are revenues received for providing goods and services to the various customers and constituencies of the University. Operating expenses are expenses paid to acquire or produce the goods and services provided in return for operating revenues and to carry out the mission of the University. Nonoperating revenues are revenues received for which goods and services are not provided. For example, state appropriations are nonoperating revenues because they

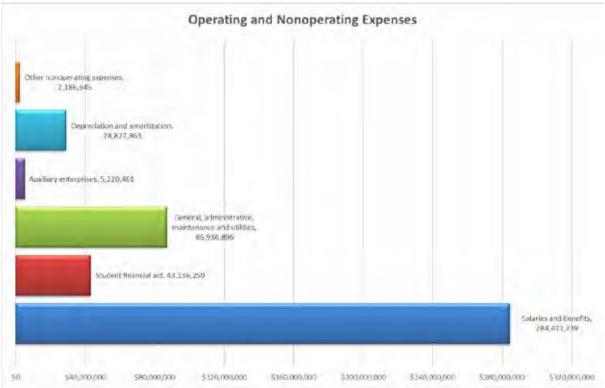

are provided by the State Legislature to the University without the Legislature directly receiving commensurate goods or services for those revenues.

Net position – ending	\$	715,987,607	\$ 696,128,959	\$ 19,858,648	2.9%

The following graphs illustrate operating and nonoperating revenues and expenses for the year ended June 30, 2023.

The Statement of Revenues, Expenses, and Changes in Net Position reflects an increase in net position of \$17.4 million. For fiscal year 2023, the University increased the levels of students and staff from the prior year. The following paragraphs discuss the significant changes from the prior year.

Operating revenues are comprised of various sources of income related to our ongoing operating model. The most significant portion of operating revenue is tuition and fees (\$156.4 million) which make up 85.7% of operating revenues and 33.4% of total revenues. Operating revenues increased by 9.2% from the prior year. Most of the increase was in auxiliary enterprises and Other Operating Revenues. Auxiliary Enterprises increased by 65.1% or \$5.3 million mostly due to the opening of the newly remodeled dining area within the student center with many new restaurants and an increase of students and activities on campus. Other Operating Revenues had an increase of 30.5% or \$2.9 million as a result of campus being fully open and operational.

Operating expenses increased from the prior year by 1.4% or \$6.2 million. Although operating expenses stayed relatively flat compared to the prior year, there were some significant fluctuations in some of the expense categories. Student Financial Aid decreased by \$28.2 million or 39.6% due to stimulus payments passed through the University to students from the Federal HEERF funds in 2022. Salaries increased by \$19.9 million or 10.4%. Salaries and benefits increased due to hiring more faculty and staff, equity and retention increases, and a cost-of-living increase. Benefits decreased by 8.9% which includes the changes in the pension asset, liability, deferred outflow of resources, and deferred inflows of resources. Excluding the benefit expense associated with the URS System discussed above, benefit expense increased \$1.8 million or 2.3%.

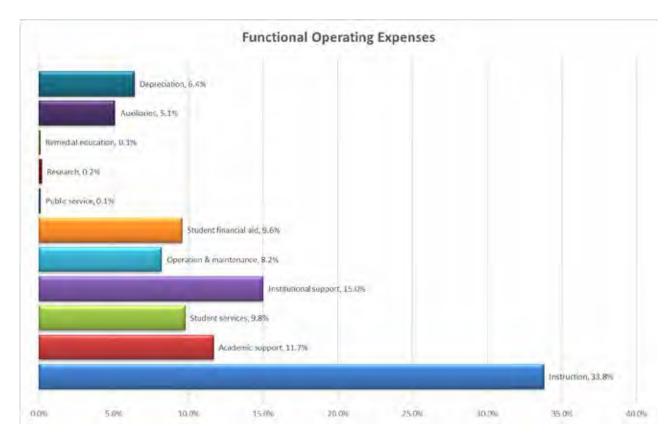

Total nonoperating revenues and expenses decreased from the prior year by \$13.7 million or 4.6%. State appropriations make up the biggest share of nonoperating revenues at 65.4% or \$184.0 million. State appropriations increased by 20.1% from the prior year. Federal grants make up the next highest portion of nonoperating revenues at 30.1% or \$84.6 million. Federal grants decreased by 36.8% or \$49.3 million due to HEERF funds being spent in the prior year and those funds were not available in 2023. In fiscal year 2023, state appropriations and federal and state grants make up 57.4% of the University's total revenue. Investment income increased \$7.6 million or 930.6% due to an increase in market value of investments. The University intends to receive the par value of investments by holding them to maturity.

Capital appropriations decreased by \$42.7 million due to the transfer of the new business building from the State Division of Facilities Management to the University in 2022. The University received \$2.0 million in capital appropriations in 2023.

The following is a summary of the University's expenses by programmatic (functional) classification for the years ended June 30, 2023, and 2022:

	June 30, 2023	June 30, 2022	Change	% Change
Operating Expenses				
Instruction	\$ 151,811,568	\$ 141,240,962	\$ 10,570,606	7.5%
Academic support	52,453,456	49,342,917	3,110,539	6.3%
Student services	43,029,895	39,786,500	3,243,395	8.2%
Institutional support	67,450,549	66,622,592	827,957	1.2%
Operation & maintenance	36,980,635	31,296,420	5,684,215	18.2%
Student financial aid	43,136,259	71,366,331	(28,230,072)	(39.6%)
Public service	436,485	452,069	(15,584)	(3.4%)
Research	936,069	864,507	71,562	8.3%
Remedial education	497,497	520,034	(22,537)	(4.3%)
Auxiliaries	23,032,442	19,293,882	3,738,560	19.4%
Depreciation and amortization	28,827,863	21,562,763	7,265,100	33.7%
Total Operating Expenses	\$ 448,592,718	\$ 442,348,977	\$ 6,243,741	1.4%

The following graph illustrates functional operating expenses as a percent of the total for the year ended June 30, 2023.

STATEMENT OF CASH FLOWS

The final statement presented is the Statement of Cash Flows. The Statement of Cash Flows presents detailed information about the cash activity of the University during the year. The statement is divided into five sections. The first section deals with operating cash flows and shows the net cash used by the operating activities of the University. The second section reflects cash flows from noncapital financing activities. This section shows the cash received and spent for nonoperating, noninvesting, and noncapital financing purposes. The third section deals with the cash used for the acquisition and construction of capital related items. The fourth section details the cash flows from investing activities and shows the purchases, proceeds, and interest received from investing activities. The fifth section reconciles the net cash used in operating activities to the operating income or loss reflected on the Statement of Revenues, Expenses, and Changes in Net Position.

	Statement of Cash Flows, Condensed							
	Jun	ne 30, 2023	J	une 30, 2022	Change	% Change		
Cash provided (used) by:								
Operating activities	\$ (2	235,052,583)	\$	(247,528,401)	\$ 12,475,818	(5.0%)		
Noncapital financing activities	,	289,700,673		306,246,118	(16,545,445)	(5.4%)		
Capital and related								
financing activities		(36,230,034)		(65,433,158)	29,203,124	(44.6%)		
Investing activities		(13,950,308)		(47,199,726)	33,249,418	(70.4%)		
Change in cash		4,467,748		(53,915,167)	58,382,915	(108.3%)		
Cash - beginning of year		75,837,709		129,752,876	(53,915,167)	(41.6%)		
Cash – end of year	\$	80,305,457	\$	75,837,709	\$ 4,467,748	5.9%		

The University's cash increased by \$4.5 million for the year. Operating activities include cash inflows from tuition and fees received (\$157.7 million) and sales from auxiliary and educational services (\$16.4 million), as well as cash outflows from payments related to employee salaries and benefits (\$291.6 million) and student aid in the form of scholarships and fellowships (\$48.6 million). Cash outflows from operating activities was \$12.5 million less than in 2022. Most of the increase in cash outflows, \$25.2 million, were due to payments related to employee services and benefits. There was an increase of \$4.9 million (42.6%) in payments related to auxiliary and educational services. This is a result of the University becoming fully operational after the pandemic and a significant remodel in the student center.

Noncapital financing activities inflows were \$289.7 million for the fiscal year. That is a decrease from the prior year by \$16.5 million. State appropriations were the largest portion of noncapital financing activities at \$181.3 million or 62.6%. State appropriations increased by \$36.8 million over the prior year. Federal, State, and private grants and contracts was a significant portions of noncapital financing activities at 35.1%. There was an decrease of \$53.4 million from the prior year due to Federal Higher Education Emergency Relief Funds (HEERF) being spent in the prior year.

Cash outflows related to capital and related financing activities were \$36.2 million for the year. Most of these outflows were related to the purchase of capital assets of \$26.6 million, most of which was the remodel of the Sorensen Student Center and the new Institutional Advancement and Alumni Building.

Cash outflows from investing activities totaled \$14.0 million, due to purchasing investments of \$75.7 million. The investment purchases were offset by the maturity of investment of \$54.5 million and the receipt of interest on investments of \$7.3 million.

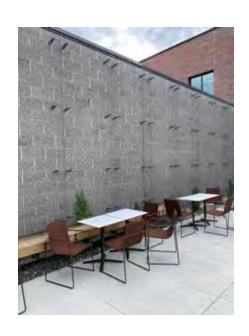

OUTLOOK

The University is facing challenges, but we are looking forward with optimism. The State of Utah has a good economy but State appropriations for higher education are expected to remain near 2023 levels. As a result, we are planning to keep our budgets flat for 2024.

Fall semester of fiscal year 2024, student enrollment increased by 3.6% and tuition did not increase. Tuition and fees as a percentage of total revenues (33.4%) is less than the percentage of State appropriations as a percentage of total revenue (39.3%) for the University, therefore, the expectation of appropriations being the same as 2023 amounts, with no increase in tuition, will be challenging for the University. Inflation continues to increase the costs to operate, however, the University is keeping tuition at 2023 levels to help ensure students can continue their education.

The University will continue to take a conservative approach for construction and expansion of facilities.

NOTE#1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

BASIS OF PRESENTATION

Utah Valley University (the University) is a component unit of the State of Utah. It is considered a component unit because it was established under Utah statute, receives funding appropriations from the State, and is financially accountable to the State. The financial activity of the University is included in the State's Annual Comprehensive Financial Report.

The accompanying financial statements include all activities that are directly controlled by the University. In addition, the financial statements include the financial position and activities of the Utah Valley University Foundation (the Foundation), as a discretely presented component unit. The accounts of the Foundation are reported under the heading "UVU Foundation" in the financial statements.

The Foundation is a separate but affiliated non-profit corporation that operates to promote the University. The Foundation's economic resources are mostly used for the benefit of the University. It is administered by a Board of Directors comprised of 18-24 members of the local community and the University. The President of the University and two other key University personnel are permanent members of the Board.

The Foundation issues separate financial statements which are audited by independent auditors. A copy of the financial statements can be obtained from the University's Institutional Advancement Office at 800 West University Parkway, Orem, Utah 84058.

BASIS OF ACCOUNTING

For financial reporting purposes, the University is considered a special purpose government entity engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents are generally considered short-term, highly liquid investments with a maturity of three months or less from the purchase date. Funds invested through the Utah Public Treasurers' Investment Fund (PTIF) are considered cash equivalents.

INVESTMENTS

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income. The University distributes earnings from pooled investments based on the average daily investment of each participating account.

ACCOUNTS RECEIVABLE

Accounts receivable consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State of Utah. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with

reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

INVENTORIES

Inventories are carried at the lower of cost or market on either the first-in, first-out (FIFO) basis or on the average cost basis.

CAPITAL ASSETS

Capital assets are recorded at historical cost on the date of acquisition or in the case of gifts, acquisition value at the date of donation. For equipment, the University's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life of at least two years. Buildings, building additions, and building improvements that extend the useful life of the asset or infrastructure, and leasehold and depreciable land improvements are capitalized if the cost is over \$250,000. Library books are capitalized and depreciated over their useful lives. Routine repairs and maintenance are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets: 40 years for buildings and improvements, 30 years for infrastructure and aircraft (less than 15 years old when acquired), 20 years for the library collection, 15 years for aircraft (greater than 15 years old when acquired), 10 years for land improvements and depreciable works of art, and 3 to 5 years for equipment. Leasehold improvements are amortized over the lesser of the useful life of the improvement or the lease term.

NONCURRENT LIABILITIES

Noncurrent liabilities include: (1) principal amounts of revenue bonds payable, notes payable, and lease obligations with contractual maturities greater than one year; (2) estimated amounts for accrued liabilities that will not be paid within the next fiscal year; (3) unearned revenue; and (4) the University's share of any unfunded liability associated with its participation in the defined benefit plans managed by Utah Retirement Systems.

UNEARNED REVENUES

Unearned revenues include amounts received for tuition and fees prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grants and contract sponsors and prepaid rental income that have not yet been earned.

COMPENSATED ABSENCES

Salaried, non-faculty full-time employees are entitled to accrue and carry forward at a calendar year-end a maximum of 30 days of annual vacation leave. Upon termination of employment, employees are entitled to be paid for accumulated unused annual vacation leave, but are not entitled to any payment for unused sick leave. The compensated absences liability includes accrued annual leave and compensatory overtime leave earned for which the employees are entitled to paid time off or payment at termination. The University calculates the compensated absences liability based on recorded balances of unused leave for which the employer expects to compensate employees through paid time off or cash payments at termination. That liability is calculated at fiscal year-end current salary costs and the cost of the salary-related benefit payments. The net change in the liability is recorded in the current year in the applicable functional expenditure category.

CLASSIFICATION OF REVENUES AND EXPENSES

The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating Revenues: Operating revenues include student tuition and fees, grants and contracts, and revenue from various auxiliary and public service functions.

Nonoperating Revenues: Nonoperating revenues include state appropriations, Pell grants and certain government grants, gifts, and investment income.

Operating Expenses: With the exception of interest expense and losses on the disposal of capital assets, all expense transactions are classified as operating expenses.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

The University records its share of any unfunded liability associated with participation in the defined benefit plans of the Utah Retirement Systems (Systems). For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems' Pension Plan and additions to/deductions from the Systems' fiduciary net position are determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

A deferred outflows/inflows of resources related to refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

RESTRICTED AND UNRESTRICTED RESOUCES

When expenses are incurred for purposes for which both restricted and unrestricted resources are available, it is the University's general policy to use restricted resources first.

NET POSITION

The University's net position is classified as follows:

Net investment in capital assets: This amount represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position – nonexpendable: Nonexpendable restricted net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal be maintained inviolate and in perpetuity and invested for the purpose of producing present and future income, which may either be expended or added to the principal.

Restricted net position – expendable: Restricted expendable net position includes resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, state appropriations, sales and services of educational departments, and auxiliary enterprises. These resources

are used for educational and general operations of the University, and may be used for any purpose at the discretion of the governing board to meet current expenses. Auxiliary enterprises are substantially self-supporting activities that provide services for students, faculty, and staff.

IMPLEMENTATION OF NEW PRONOUNCEMENTS

During the year ended June 30, 2023, the University adopted Governmental Accounting Standards Board Statement No. 96, Subscription-based Information Technology Arrangements (SBITA). The new standard defines a SBITA as a contract that conveys control of the right to use another party's information technology software, alone or in combination with tangible capital assets, as specified in the contract for a period of time in an exchange or exchange-like transaction. The statement establishes that a SBITA results in a right-to-use subscription asset and a corresponding subscription liability. There was an impact to beginning net position in the statement of net position as a result of adopting this standard. See Note 21 for more information.

Subscription-based Information Technology Arrangements

At the commencement of a SBITA, the subscription liability is initially measured at the present value of subscription payments expected to be made during the subscription term. The subscription asset is measured as the sum of the initial subscription liability amount, the payments made to the SBITA vendor before commencement of the subscription term, and the capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. The University recognizes subscription liabilities with an initial, individual value of \$50,000 or more. The subscription asset is amortized on a straight-line basis over the shorter of the subscription term or the useful life of the underlying subscription asset.

Key estimates and judgments related to SBITAs include how the University determines (a) the discount rate it uses to discount the expected subscription payments to present value, (b) subscription term, and (c) subscription payments.

- The University uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the University uses its estimated incremental borrowing rate as the discount rate for subscription liabilities.
- The subscription term includes the noncancellable period of the SBITA. Subscription payments included in the measurement of the Subscription payable are composed of fixed payments and other payments the government is reasonably certain will be required to be made to the SBITA vendor.

Leases

Lessee – The University is a lessee for noncancellable leases of equipment, land, and buildings. The University recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the statement of net position. The University recognizes lease liabilities with an initial, individual value of \$10,000 or more.

At the commencement of a lease, the University initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Key estimates and judgments related to leases include how the University determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The University uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the University uses an estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the
 measurement of the lease liability are composed of fixed payments and purchase option price that the
 University is reasonably certain to exercise.

The University monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the statement of net position.

Lessor – The University is a lessor for noncancellable leases of various facilities. The University recognizes a lease receivable and a deferred inflow of resources in the financial statements.

At the commencement of a lease, the University initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the University determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The University uses its expected rate of return as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The University monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

INCOME TAXES

The University is a political subdivision of the State of Utah and is consequently exempt from federal and state income taxes. The University also qualifies as an organization exempt from taxation under section 501(c)(3) of the Internal Revenue Code.

The Utah Valley University Foundation, a discretely presented component unit of the University, qualifies as an organization exempt from taxation under section 501(c)(3) of the Internal Revenue Code. Consequently, it is also exempt from federal and state income tax.

SCHOLARSHIP ALLOWANCE

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts are

the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship allowance.

NOTE#2 DEPOSITS AND INVESTMENTS

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the entity's deposits may not be returned. The University does not have a formal deposit policy for custodial credit risk. As of June 30, 2023, \$7,795,006 of the University's bank balances of \$8,295,006 were uninsured and uncollateralized.

Investments

The State of Utah Money Management Council has the responsibility to advise the State Treasurer about investment policies, promote measures and rules that will assist in strengthening the banking and credit structure of the state, and review the rules adopted under the authority of the State of Utah Money Management Act that relate to the deposit and investment of public funds.

Except for endowment funds, the University follows the requirements of the Utah Money Management Act (Utah Code, Title 51, Chapter 7) in handling its depository and investment transactions. The Act requires the depositing of entity funds in a qualified depository. The Act defines a qualified depository as any financial institution whose deposits are insured by an agency of the Federal Government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council.

The Money Management Act defines the types of securities authorized as appropriate investments for the University non-endowment funds and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

Statutes authorize the University to invest in negotiable or nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; obligations, other than mortgage derivative products, issued by U.S. government sponsored enterprises (U.S. Agencies) such as the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (Freddie Mac), and Federal National Mortgage Association (Fannie Mae); bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in the Money Management Act; reciprocal deposits and negotiable brokered certificates of deposits in accordance with the Act; and the Utah State Public Treasurers' Investment Fund.

The Utah State Treasurer's Office operates the Public Treasurers' Investment Fund (PTIF). The PTIF is available for investment of funds administered by any Utah public treasurer and is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act (Utah Code,

Title 51, Chapter 7). The Act established the Money Management Council which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The UPMIFA and Rule 541 allow the University to invest endowment funds (including gifts, devises, or bequests of property of any kind from any source) in any of the above investments or any of the following subject to satisfying certain criteria: mutual funds registered with the Securities and Exchange Commission, investments sponsored by the Common Fund; any investment made in accordance with the donor's directions in a written instrument; investments in corporate stock listed on a major exchange (direct ownership); and any alternative investment funds that derive returns primarily from high yield and distressed debt (hedged or non-hedged), private capital (including venture capital and private equity), natural resources, and private real estate assets or absolute return and long/short hedge funds.

Fair Value of Investments

The University measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

At June 30, 2023, the University had the following recurring fair value measurements:

		Fair Value Measurement at Reporting Date Using						
	Foir Volvo	Active M Identic	l Prices in Markets for al Assets/ bilities	Significant Other Observable Inputs	Unobs In	nificant servable aputs		
	Fair Value	(Le	evel 1)	(Level 2)	(Le	evel 3)		
Debt Securities								
Utah Public Treasurers' Investment Fund	\$ 76,157,016	\$	-	\$ 76,157,016	\$	-		
Government Sponsored Enterprise Bonds	55,635,940		-	55,635,940		-		
Corporate bonds	75,248,488			75,248,488		-		
Total debt securities	\$207,041,444	\$		\$207,041,444	\$	-		

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities classified in Level 2 are valued using the following approaches:

- Corporate Bonds and Government Sponsored Enterprise Bonds: quoted prices for similar securities in active markets;
- Utah Public Treasurers' Investment Fund: application of the Utah State Treasurer provided a fair value factor to the University's June 30 balance in the fund.

Level 3 investments generally do not have readily obtainable market values. The University values these investments using various sources such as financial statements or other financial valuations provided by the external advisor. June 30 valuations are preferred, if available. However, if June 30 valuations are not available, the value is progressed from the most recently available valuation.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the State's Money Management Act or the UPMIFA and Rule 541, as applicable. For non-endowment funds, Section 51-7-11 of the Money Management Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The Act further limits the remaining term to maturity on all investments in commercial paper, bankers' acceptances, fixed rate negotiable deposits, and fixed rate corporate obligations to 270 days - 15 months or less. The Act further limits the remaining term to maturity on all investments in obligations of the United States Treasury; obligations issued by U.S. government sponsored enterprises; and bonds, notes, and other evidence of indebtedness of political subdivisions of the State to 10 years for institutions of higher education. In addition, variable rate negotiable deposits and variable rate securities may not have a remaining term to final maturity exceeding 3 years. For endowment funds, Rule 541 is more general, requiring only that investments be made as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the endowments and by exercising reasonable care, skill, and caution.

As of June 30, 2023, the debt investments and maturities were as follows:

		Investment Maturities (in Years)					
Investment Type	Fair Value	Less than One	One to Five		ve to Ten		en to venty
Utah Public Treasurers' Investment Fund	\$ 76,157,016	\$ 76,157,016	\$ -	\$	-	\$	-
Government Sponsored Enterprise Bonds	55,635,940	4,984,327	50,651,613		-		-
Corporate bonds	75,248,488	24,682,282	50,566,206		-		-
Total	\$207,041,444	\$105,823,625	\$101,217,819	\$	-	\$	_

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's policy for reducing its exposure to credit risk is to comply with the Act, the UPMIFA, and Rule 541, as previously discussed.

At June 30, 2023, the University had debt investments and quality ratings as follows:

		Quality Rating					
Investment Type	Fair Value	Aaa to AA-	A1 to A-	Baa1 to BBB-	Unrated		
Utah Public Treasurers' Investment Fund	\$ 76,157,016	\$ -	\$ -	\$ -	\$ 76,157,016		
Government Sponsored Enterprise Bonds	55,635,940	55,635,940	-	-	-		
Corporate bonds	75,248,488		51,237,597	24,010,891			
Totals	\$207,041,444	\$ 55,635,940	\$ 51,237,597	\$ 24,010,891	\$ 76,157,016		

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The University's policy for reducing this risk of loss is to comply with the Rules of the Money Management Council or the UPMIFA and Rule 541, as applicable. Rule 17 of the Money Management Council limits non-endowment fund investments in a single issuer of commercial paper and corporate obligations to between 5% and 10% depending upon the total dollar amount held in the portfolio at the time of purchase. For endowment funds, Rule 541 requires that a minimum of 25% of the overall endowment portfolio be invested

in fixed income or cash equivalents. Also, the overall endowment portfolio cannot consist of more than 75% equity investments. Rule 541 also limits investments in alternative investment funds, as allowed by Rule 541, to between 0% and 30% based on the size of the University's endowment fund. As of June 30, 2023, the University held more than 5% of its total investments in Federal Home Loan Bank (17.44%), Freddie Mac (7.02%), and Wells Fargo (6.81%). All investments are in compliance with the Utah Money Management Act.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the entity will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The University does not have a formal policy for custodial credit risk. At June 30, 2023, the University had \$130,884,428 in corporate bonds and government sponsored enterprise bonds, which were uninsured and held by the counterparty's trust department, but not in the University's name.

NOTE#3 ACCOUNTS, NOTES, PLEDGES AND CONTRIBUTIONS RECEIVABLE

University accounts receivable consisted of the following at June 30, 2023:

Current accounts receivable, net	
Student tuition and fees	\$ 3,614,097
Interest	771,731
Operating activities	136,350
Leases	1,715,794
Grants and contracts	5,124,118
Auxiliary enterprises	353,000
Total	11,715,090
Less allowance for doubtful accounts	 (435,000)
Total	 11,280,090
Current accounts receivable-state agency	
Operating activities	182,254
Student tuition and fees	95,342
Grants and contracts	 110,422
Total	 388,018
Noncurrent accounts receivable, net	
Leases	4,181,793
Operating activities	 1,411,315
Total accounts receivable	\$ 17,261,216

Student loans made through the Federal Perkins Loan Program were assigned back to the Department of Education prior to June 30, 2023.

Lease Receivable

The University leases various facilities to third parties 1 to 10 years. For the year ended June 30, 2023, the University recognized lease revenue of \$2,216,331 and interest revenue of \$306,410. At June 30, 2023, the University reports a lease receivable of \$5,897,586 and a deferred inflow of resources related to leases of \$5,349,281.

Fiscal Year Ending

June 30	Principal		Interest		Total	
2024	\$	1,715,794	\$	248,175	\$	1,963,969
2025		1,315,960		171,005		1,486,965

Total	\$	5,897,586	\$	604,013	\$	6,501,599

NOTE#4 INVENTORIES

Inventories at June 30, 2023 were as follows:

Auxiliary enterprises	\$ 882,754
Supplies and other inventory	 1,013,865
Total	\$ 1,896,619

NOTE#5 PREPAID EXPENSES

Prepaid expenses at June 30, 2023 were as follows:

Dropoid	expenses
Pre baid	expenses

Prepaid sofware maintenance agreements	\$ 2,450,884
Contracts and other	6,600
Total	\$ 2,457,484

NOTE#6 ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

University accounts payable consisted of the following at June 30, 2023:

Current accounts payable	
Interest payable	\$ 356,810
Vendors payable	5,901,718
Grants and contracts	1,184,963
Wolverine Card deposits	965,738
Total	8,409,229
Current accounts payable-related party	
Interest payable	25,759
Current accounts payable-state agency	
State taxes payable	22,233
Other payable	33,385
Construction payable	1,236,229
Total accounts payable - state agency	1,291,847
Total	\$ 9,726,835
University accrued liabilities consisted of the following at June 30, 2023:	
Current accrued liabilities	
Federal taxes payable	\$ 2,094,415
Wages payable	6,563,794
Early retirement payable	629,713
Accrued leave payable	3,702,423
Medical and dental claims payable	3,412,795
Student reimbursements	71,247
Payroll liabilities	2,967,488
Total	19,441,875
Current accrued liabilities-state agency	1 100 470
State taxes payable	1,108,478

NOTE#11 BONDS PAYABLE

The State Board of Regents of the State of Utah issued Student Center Building Fee and Unified System Revenue and Refunding Bonds, Series 2019A, in the amount of \$21,860,000 and Student Center Building Fee and Unified System Revenue Refunding Bonds, (Federally Taxable) Series 2019B, in the amount of \$31,010,000 for and on behalf of the University on November 5, 2019. The SBR 2019 A&B Bonds were issued for the purpose of (i) financing the remodeling and expansion of the Sorensen Student Center; (ii) refund certain outstanding bonds; and (iii) paying the costs associated with the issuance of the 2019 A&B Bonds.

The State Board of Regents of the State of Utah, Student Center Building Fee and Unified System Revenue Refunding Bonds, Series 2019B (Federally Taxable) issued on November 5, 2019 for \$31,010,000 and \$132,654 of original issue premium, plus an additional \$1,427,996 from the SBR 2012A Bond Reserve Fund, were used to advance refund \$29,615,000 outstanding on the SBR 2012A Student Center Building Fee and Unified System Revenue Bonds, beginning with the November 1, 2023 payment through the final November 1, 2032 payment. The net proceeds were used to purchase U.S. Government securities and were deposited in an irrevocable trust with an escrow agent for future debt service payments for this portion of the SBR 2012A Bonds. As of June 30, 2023, \$29,615,000 of the SBR 2012A Bonds are considered defeased and the outstanding liability for those bonds has been removed from the Statement of Net Position.

Bonds payable at June 30, 2023 consisted of the following:

Description		Original Issue		Balance ine 30, 2023	Due Within One Year		
SBR 2019A Student Center Building Fee and Unified System Tax-Exempt Revenue and Refunding Bonds, due in annual installments through 2040, interest rates 3% to 5%	\$	21,860,000	\$	19,730,000	\$	785,000

Total net bonds	\$	56,423,551	\$	52,623,971	\$	3,681,249	

Principal and interest on the SBR 2019A Bonds and the SBR 2019B Bonds are secured by pledged revenues which consist of all (i) net operating revenues of the Bookstore, the Student Center, and all University Food Services; (ii) the Student Life and Wellness Center building, parking, and related facilities; (iii) all other facilities which may be hereafter added to the Unified System by the Board or financed with proceeds of Bonds; (iv) interest earnings on all funds and accounts created under the bond indentures; (v) and the Student Center Building Fees. The revenues are pledged until fiscal year 2040 when the last bond is retired. The total pledged revenues are estimated to be equal to future debt service payments of \$60,315,268.

The following is a summary of the pledged revenues for fiscal year 2023 and the bond payments due in fiscal year 2024:

Pledged revenues	
Building fee – Spring	\$ 2,087,206
Building fee – Summer	619,274
Building fee – Fall	2,212,697
Total building fees	4,919,177
Interest income	24,585
Unified system revenues	1,140,427
Total pledged revenues	\$ 6,084,189
Principal and interest payments for fiscal year 2024	
SBR 2019A Bonds	1,557,575
SBR 2019B Bonds	3,390,502
Total principal and interest payments to be covered by pledged revenues	\$ 4,948,077

A Reserve Policy from Assured Guaranty Municipal Corp was purchased with respect to the Series 2019 A&B Bonds. Under the terms of the Reserve Policy, Assured Guaranty Municipal Corp will unconditionally and irrevocably guarantee to pay that portion of the scheduled principal and interest on the Series 2019 A&B Bonds that becomes due for payment but shall be unpaid by reason of nonpayment by the University.

The scheduled maturities of bonds payable at June 30, 2023, are as follows:

Year	Principal	Interest	Total
2024	\$ 3,500,000	\$ 1,448,077	\$ 4,948,077
2025	3,595,000	1,354,609	4,949,609
2026	3,695,000	1,253,598	4,948,598
2027	3,795,000	1,144,845	4,939,845
2028	3,910,000	1,030,255	4,940,255
2029-2033	21,425,000	3,254,909	24,679,909
2034-2038	6,790,000	1,002,550	7,792,550
2039-2040	3,025,000	91,425	3,116,425
Total	\$ 49,735,000	\$ 10,580,268	\$ 60,315,268

NOTE#12 NOTES PAYABLE

The University has entered into the following agreements:

During the year ended June 30, 2020, the University created a single member LLC, UVU 2912 Executive Parkway Lehi, LLC, with the University as the only member. This entity was created in order to facilitate a note to purchase a building. The LLC entered into an agreement with Deutsche Bank to finance \$10,606,744 towards the purchase of the building. The agreement carries a term of 3 years and bears an interest rate of 5.0% with monthly payments of \$63,606. This note matures November 2023. The amount owed as of June 30, 2023, was \$9,831,214.

The following is a schedule of notes payable as of June 30, 2023:

Fiscal Year Ending							
June 30	Principal		Interest				
2024	\$	9,831,214	\$	207,637			

RELATED PARTY TRANSACTIONS

The University entered into various agreements involving the Foundation:

A. During the year ended June 30, 2020, the University borrowed \$3,201,970 to acquire a building at Thanksgiving Point. The note carries a term of 7 years and bears an interest rate of 5.5% with semi-annual payments of \$278,650. This note matures in June 2027. The amount owed as of June 30, 2023, was \$1,976.831.

During the year ended June 30, 2014, the University borrowed \$6,138,268 to acquire land. The note carries a term of 20 years and bears an interest rate of 5.5% with semi-annual payments of \$254,932. This note matures in June 2034. The amount owed as of June 30, 2023, was \$4,166,474.

The principal maturities on these notes as of June 30, is as follows:

Fiscal Year Ending			
June 30	Principal		Interest
2024	\$	739,309	\$ 327,854
2025		780,530	286,633
2026		824,050	243,114
2027		869,996	197,168
2028		353,540	156,323
2029-2033		2,086,303	463,012
2034-2038		489,577	20,287
Total	\$	6,143,305	\$ 1,694,391

B. During the year ended June 30, 2023, the Foundation had certain additional transactions with the University in its capacity to support the University. The Foundation forwarded funds and donated in-kind materials and equipment to the University for scholarships, awards, departments, and general use. Funds forwarded to departments during the year ended June 30, 2023 were used towards wages and purchases of items to enhance University programs. The University provides facilities and services to the Foundation, the value of which is undetermined and is not recorded on the financial statements.

NOTE#13 LEASES

The University has entered into lease agreements as lessee for the acquisition and use of buildings, land, and equipment. As of June 30, 2023, the value of the lease liability was \$601,763. The University is required to make annual principal and interest payments of various amounts. The leases have an average interest rate of 3.27%. The value of the right-to-use assets as of the end of the current fiscal year was \$895,014 and had accumulated amortization of \$326,795.

The following is a schedule of future debt service requirements on the leases:

Fiscal Year Ending						
June 30	Principal		Interest		Total	
2024	\$	56,999	\$	24,075	\$	81,074
2025		12,247		22,956		35,203
2026		4,927		22,737		27,664
2027		5,707		22,508		28,215
2028		6,471		22,306		28,777
2029-2033		46,725		105,986		152,711
2034-2038		75,566		92,957		168,523
2039-2043		113,139		72,824		185,963
2044-2048		161,703		43,489		205,192
2049-2052		118,279		7,213		125,492
Total	\$	601,763	\$	437,051	\$	1,038,814

NOTE#14 SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The University has entered into subscription-based information technology agreements (SBITA's). The University is required to make annual principal and interest payments of various amounts. The SBITA's have an average interest rate of 3.1%. The subscription assets have an estimated useful life over the estimated terms of the agreement ranging from 2-6 years. The value of the right-to-use assets as of the end of the current fiscal year was \$16,636,277 and had accumulated amortization of \$8,613,812.

The following is a schedule of future obligations related to SBITA's:

Fiscal Year Endi	ıng
------------------	-----

June 30	Principal	Interest	Total
2024	\$ 2,269,494	\$ 117,988	\$ 2,387,482
2025	1,115,542	44,493	1,160,035
2026	184,611	5,980	190,591
2027	33,009	633	33,642
Total	\$ 3,602,656	\$ 169,094	\$ 3,771,750

NOTE#15 EARLY RETIREMENT LIABILTY

The University provides an early retirement option to qualified employees who are approved by the administration in accordance with University policy as approved by the Utah Board of Higher Education. Employees who retire from the University on or after age 57 and whose combined total of age and years of service is 75 or greater may be qualified to receive benefits.

Benefits are payable for five years or until the retiree reaches age 65, whichever occurs first. The benefits include a stipend equal to 20% of the retiree's salary at the time of active employment along with medical and dental insurance. The stipend is paid semi-monthly. During the fiscal year ended June 30, 2023, 39 employees participated in the early retirement plan, most of which received both stipends and medical benefits. All 39 participants received medical and dental insurance benefits and 27 participants received stipends.

The projected future cost of these stipends, and medical and dental insurance benefits have been calculated based on current payments plus projected increases expected of 1.14% and 6.11% respectively, based on historical data. The amount recognized on the financial statements was calculated at the discounted present value of the projected future costs.

The discount rate used of 3.78% was based on the estimated yield expected to be earned on the investments of the University. These benefits are funded on a pay-as-you-go basis from current funds each year. For the year ended June 30, 2023, the expenses for the 20% incentive stipend were \$320,836 and the expenses for medical and dental insurance were \$250,465.

NOTE#16 PENSION PLANS AND RETIREMENT BENEFITS

In compliance with State law, eligible employees of the University are covered by either defined benefit plans and/or defined contribution plans sponsored by the Utah Retirement Systems (Systems) or the University's 401(a) defined contribution plan with investment options through Teachers Insurance and Annuity Association (TIAA) and Fidelity Investments (Fidelity). Employees may also participate in defined contribution plans consisting of 401(k), 403(b) and 457 plans managed by the Systems.

DEFINED BENEFIT PLANS

Eligible employees of the University are provided with the following plans administered by Utah Retirement Systems (the Systems):

- Tier 1 Public Employees Noncontributory Retirement System (Noncontributory System) and the Public Employees Contributory Retirement System (Contributory System) are multiple employer cost-sharing, public employee retirement systems.
- Tier 2 Public Employees Hybrid Retirement System (Tier 2 Public Employee System) is a multiple employer, cost sharing, public employee retirement system.

The Tier 2 Public Employee System was created July 1, 2011. All eligible employees who have no previous service credit with any of the Utah Retirement Systems prior to that date, are members of the Tier 2 Retirement Systems.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated, 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act provides for the administration of the Utah Retirement Systems and Plans under the direction of the Utah State Retirement Board (Board) whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds and are a component unit of the State of Utah. Chapter 49 of the Utah Code grants the authority to establish and amend the benefit terms. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the Systems. A copy of the report may be obtained by writing to the Utah Retirement Systems at 560 East 200 South, Salt Lake City, UT 84102 or visiting the website www.urs.org.

Benefits provided: The Systems provide retirement, disability, and death benefits to participants in the defined benefit pension plans. Retirement benefits for each defined benefit plan are as follows:

	Years of Service		
Final Average Salary	Age of Eligibility	Benefit % Per Year	COLA**
Highest 3 Years	30 Years any age	2% per year all years	up to 4%
	25 Years any age*		
	20 Years age 60*		
	10 Years age 62*		
	4 Years age 65		
Highest 5 Years	30 Years any age	1.25% per year to June 1975	up to 4%
	20 Years age 60*	2.00% per year July 1975	
	10 Years age 62*	to present	
	4 Years age 65		
Highest 5 Years	35 Years any age	1.5% per year to all years	up to 2.5%
-	20 Years age 60*		_
	10 Years age 62*		
	4 Years age 65		
	Highest 5 Years	Final Average Salary Highest 3 Years 30 Years any age 25 Years any age* 20 Years age 60* 10 Years age 62* 4 Years age 65 Highest 5 Years 30 Years any age 20 Years age 60* 10 Years age 62* 4 Years age 65 Highest 5 Years 35 Years any age 20 Years age 65 Highest 5 Years 35 Years any age 20 Years age 65* 10 Years age 60* 10 Years age 60*	Final Average Salary Highest 3 Years 30 Years any age 25 Years any age* 20 Years age 60* 10 Years age 65 Highest 5 Years 30 Years any age 25 Years age 60* 10 Years age 65 Highest 5 Years 30 Years any age 20 Years age 60* 10 Years age 62* 4 Years age 62* 4 Years age 65 Highest 5 Years 35 Years any age 20 Years age 60* 10 Years age 60* 10 Years age 60* 10 Years age 62*

^{*} Actuarial reductions are applied.

Contributions: As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Systems' Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable), is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability.

For the year ended June 30, 2023, the University's required contribution rates for the plans were as follows:

	Employer Paid	Employer
	for Employee	Contribution Rates
Contributory System		
Higher Education - Tier 1	6.00%	17.70%
Higher Education - Tier 2 *	N/A	19.84%
Noncontributatory System		
Higher Education - Tier 1	N/A	22.19%

^{*} Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

^{**} All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit.

The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

For the year ended June 30, 2023, the University and employee contributions to the plans were as follows:

Systems	·	Employer Paid]	Employee Paid
Noncontributory System	\$	3,970,922		N/A
Contributory System		64,453	\$	21,848
Tier 2 Public Employees System		1,303,479		N/A
	\$	5,338,854		

Pension assets, liabilities, pension expense, and deferred outflows of resources, and deferred inflows of resources related to pensions: The net pension asset and liability were measured as of December 31, 2022. The total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2022 and rolled forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year. At December 31, 2022, the University's proportionate shares in the defined benefit pension plans were as follows:

	Proportionate Share	Ne	t Pension Asset	et Pension Liability	Proportionate Share December 31, 2021	Change
Contributory System Noncontributory System	12.8179547% 9.3924097%	\$	118,436 164,419	\$ -	13.1783063% 9.5799320%	-0.3603516% -0.1875223%
Tier 2 Public Employees System	0.2780763%		-	 302,796	0.3068593%	-0.0287830%
Total Net Pension Asset/Liability		\$	282,855	\$ 302,796	=	

For the year ended June 30, 2023, the University reported pension expense of (\$3,442,930). At June 30, 2023, the University reported the portion of the reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows	Inflows
	of Resources	of Resources
Difference between expected and actual experience	\$ 1,243,068	\$ 192,871
Change in assumptions	134,268	770
Net difference between projected and actual earnings		
on pension plan investments	3,532,865	-
Changes in proportion and differences between contributions		
and proportionate share of contributions	42,307	75,148
Contributions subsequent to the measurement date	2,778,456	
	\$ 7,730,964	\$ 268,789

Contributions made between January 1, 2023, and June 30, 2023, of \$2,778,456 are reported as deferred outflows of resources related to pensions. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ending	Deferred Outflows				
December 31,	(Inflows) of Resources				
2023	\$	(2,281,732)			
2024		(658,624)			
2025		1,603,621			
2026		5,910,177			
2027		22,817			
Thereafter		87,459			
	\$	4,683,718			

Actuarial assumptions: The total pension liability in the December 31, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases 3.25% - 9.25%, average, including inflation

Investment rate return 6.85%, net of pension plan investment expense, including inflation

Mortality rates were adopted from an actuarial experience study dated January 1, 2020. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using 80% of the ultimate rates from the MP-2019 improvement assumption using a base year of 2020. The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

The actuarial assumptions used in the January 1, 2022, valuation were based on an experience study of the demographic assumptions as of January 1, 2020, and a review of economic assumptions as of January 1, 2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Expected Return Arithmetic Basis

			Long-term
	Target Asset	Real Return	Expected Real
Asset Class	Allocation	Arithmetic Basis	Rate of Return
Equity securities	35%	6.58%	2.30%
Debt securities	20%	1.08%	0.22%
Real Assets	18%	5.72%	1.03%
Private equity	12%	9.80%	1.18%
Absolute return	15%	2.91%	0.44%
Cash and cash equivalents	0%	-0.11%	0%
Totals	100%		5.17%
Inflation			2.50%
Expected arithmetic nominal return	1		7.67%

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50%, a real return of 4.35% that is net of investment expense.

Discount rate: The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the Systems' Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. The long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

Sensitivity of the University's proportionate share of the net pension asset and liability to changes in the discount rate: The following presents the proportionate share of the net pension liability (asset) calculated using the discount rate of 6.85%, as well as, what the proportionate share would be if calculated using a discount rate that is one percentage point lower (5.85%) or one percentage point higher (7.85%) than the current rate:

	1% Decrease		ase Discount Rate			1% Increase		
System	(5.85%)		(5.85%)		(6.85%)		(7.85%)	
Noncontributory System	\$	25,023,725	\$	(164,419)	\$	(21,266,854)		
Contributory System		1,651,853		(118,436)		(1,642,871)		
Tier 2 Public Employees System		1,323,051		302,796		(483,182)		
Total	\$	27,998,629	\$	19,941	\$	(23,392,907)		

Pension plan fiduciary net position: Detailed information about the pension plans' fiduciary net position is available in the separately issued URS financial report.

DEFINED CONTRIBUTION PLANS

TIAA and Fidelity: Under the University's 401(a) plan, TIAA and Fidelity provide eligible employees 401(a) retirement accounts and investment options. Participating employees allocate employer provided contributions to the investment options of their choosing through TIAA and/or Fidelity. Contributions are vested at the time the contribution is made. Employees are eligible to participate from the date of eligible employment and no employee contributions are required. Benefits provided to retired employees are based on employer contributions and investment performance. For the year ended June 30, 2023, the University's contribution to these defined contribution plans was 14.20% of the employees' eligible employment earnings. The University has no further liability once contributions are made.

Tier 2 Employees System, 401(k), 457 and 403(b) Plans: Employees are also eligible to (under certain IRS and plan restrictions) make individual contributions on a tax-deferred and after-tax bases to 401(k), 457, 403(b), Traditional IRA, Roth IRA, and Roth 457 & 403(b) defined contribution plans. These plans are available as supplemental plans to the basic retirement plans offered by the University and as a primary retirement plan for some Tier 2 Public Employee System participants. Under certain IRS and plan restrictions, employees can make additional contributions. Employer contributions may be made into the plans at rates determined by the employer and according to Utah Title 49. Participants are fully vested at the time contributions are made except for Tier 2 required employer contributions and associated earnings are vested after the first four years of employment.

The Contributory and Noncontributory Systems require the University to contribute 0.18% to 1.50% of the employee's salary into a 401(k)/457 plan. For employees who participate in the Systems Tier 2 retirement and elect the defined contribution option (instead of the defined benefit option, Hybrid Retirement System), the University is required to contribute 20.02% of the employees' salary of which 10% is paid into a 401(k)/457 plan while the remainder is contributed to the non-Tier 2 Public Employee System, as required by law.

Contributions to the defined contributions plans for the fiscal year ending June 30, 2023, were as follows:

	Employer	1	Employee	
Defined Contribution Plans	 Paid	Paid		
Tier 2 Public Employee System	\$ 169,208		N/A	
TIAA and Fidelity	20,140,725	\$	2,865,089	
401(k) Plan	570,519		468,931	
457 Plan	-		74,638	
Roth IRA Plan	N/A		122,477	

NOTE#17 RISK MANAGEMENT

Due to the diverse risk exposure of the University, the insurance portfolio contains a full variety of coverage. The University participates in basic general liability, tort claim coverage, directors and officers liability, and property and casualty programs provided by the State of Utah Department of Risk Management. The University's liabilities for this policy are limited to the cost of premiums. In addition to these basic policies, the University's Department of Risk, Plant, and Property Management establishes guidelines in risk assessment, risk avoidance, risk transfer, and risk acceptance. The University's buildings and contents are insured for replacement value. Each loss incident is subject to a \$1,000 deductible.

NOTE#18 SELF-INSURANCE FOR EMPLOYEE HEALTH AND DENTAL CARE

On July 1, 2006, the University established a self-funded insurance plan for employee health and dental care costs. As part of the plan, the University has established a reserve fund. Also, the University has purchased excess insurance coverage (stop-loss coverage) to pay specific claims exceeding \$300,000 and \$300,000 aggregate. The University has a contract with EMI Health of Utah and Regence Blue Cross Blue Shield to provide excess insurance and certain administrative and management services such as the evaluation and payment of claims for dental and health, respectively. Amounts of settlements have not exceeded insurance coverage in the past three years. In addition, a consulting firm has been hired by the University to advise the University with regards to the plan. The estimated claims liability was based upon past experience adjusted for current trends. The estimate reflects the ultimate cost of settling the claims.

Changes in the University's estimated self-insurance claims as of June 30, are as follows:

2025		2022
\$ 3,227,232	\$	5,043,585
40,539,632		36,225,431
 (40,354,069)		(38,041,784)
\$ 3,412,795	\$	3,227,232
\$ \$	\$ 3,227,232 40,539,632 (40,354,069)	\$ 3,227,232 \$ 40,539,632 (40,354,069)

2022

2022

NOTE#19 COMMITMENTS AND CONTINGENT LIABILITIES

The University, through an Inter-Local Cooperation Agreement (the Agreement), is a participant with Utah County (the County) in a joint venture to operate the UCCU Center (the Center) located on the University's campus. The Agreement provides that the title to the Center be held by the University and neither the County nor any other party may obtain any property interest in the land or the facility. The agreement also provides that in consideration of the financial contribution made by the County, at least 40% of the usage of the Center be for public and/or community use. The investment in the Center and the operating results are accounted for in the University's financial statements. There are no separately issued financial statements for this joint venture.

The University participates in certain federal grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. It is highly unlikely that any disallowances would be material.

The Division of Facilities Construction and Management (DFCM) administers most of the construction of facilities for State institutions, maintains records, and furnishes cost information for recording capital assets on the books of the University. Construction projects are recorded on the books of the University as funds are expensed, or when projects are substantially completed if funded through State Appropriations administered through DFCM.

As of June 30, 2023, the University had the following outstanding commitments to DFCM for various projects:

Performing Arts Building	\$	1,982,156
Scott C. Keller Business Building		1,353,072
Sorenson Student Center		910,793
Campus infrastructure		142,362
Browning Admin Building		16,455
UCCU Events Center		113,785
Engineering Building		28,904,349
BTU Meters		6,800
Woodbury Business Building		20,317,262
New soccer stadium planning		1,350,357
Total	\$:	55,097,391

These commitments represent funds needed in the future and are not recorded.

NOTE#20 NATURAL CLASSIFICATIONS WITH FUNCTIONAL CLASSIFICATIONS

The University's operating expenses by functional classification for June 30, 2023, were as follows:

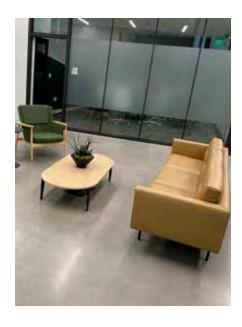

Year Ended June 30, 2023 Natural Classification

NOTE#21 RESTATEMENT

The University implemented GASB Statement 96 – Subscription-Based Information Technology Arrangements, which resulted in a restatement of beginning net position as follows:

Beginning net position, as previously stated	\$ 696,128,959
Net adjustment from implementing GASB 96	 2,420,433
Beginning net position, as restated	\$ 698,549,392

NOTE#22 SELECTED NOTES FROM THE UVU FOUNDATION

<u>Contributions Receivable</u> (see UVU Foundation Note 4)

Contributions are recorded when collection of the unconditional promise to give is expected in the near term and is probable. An allowance for uncollectible contributions is estimated as a percentage of contributions receivable at year end based on the Foundation's historical collection experience. All contributions receivable (at their net present value and net of an allowance for uncollectible amounts) are restricted for various purposes at June 30, 2023 as follows:

\$ 11,591,408
255,238
935,096
839,537
185,016
2,849
5,130,319
-
181,592
79,759
 6,215,726
\$ 25,416,540
\$

Unconditional promises to give will be received (depending on the donor) from within one year to ten years. Contributions to be received after June 30, 2023 have been discounted to their net present value using the June 2023 Applicable Federal Rates for the anticipated collection period. The Applicable Federal Rates discount rate ranged from 0.36 to 3.79 percent.

Contributions receivable are as follows at June 30, 2023:

Receivable within one year	\$ 7,539,525
Receivable from one to five years	15,778,500
Receivable in more than five years	20,395,000
Total contributions receivable	43,713,025
Discount contributions to net present value	(11,942,350)
Allowance for uncollectible contributions	(6,354,135)
Contributions receivable, net	\$ 25,416,540

Investments (see UVU Foundation Note 5)

Investments consist of the following at June 30, 2023:

INVESTMENTS

	2023
PTIF	\$ 78,553,972
Common and preferred stocks	47,142,510
Mutual funds	8,471,851
Money market accounts	782,063
Alternatives	12,644,885
Total	\$ 147,595,281

The Foundation's investments have the following maturities at June 30, 2023:

		Investment Maturities (in Years)					
	Fair Value	Less than 1	1 to 5	5 to 10	10 to 20		
PTIF	\$ 78,553,972	\$ 78,553,972					
Mutual funds	8,471,851	8,471,851					
Money market accounts	782,063	782,063					
Total investments with a maturity	87,807,886	\$ 87,807,886					
Common and preferred stocks	47,142,510						
Alternatives	12,644,885						
Total investments	\$147,595,281						

Credit quality ratings for investments are as follows at June 30, 2023:

		Credit Rating									
	Fair Value	AAA to A+		A to A-		B or Lower		Unrated			
PTIF	\$ 78,553,972	\$	-	\$	-	\$	-	\$ 78,553,972			
Mutual funds	8,471,851		-		-		-	8,471,851			
Money market accounts	782,063				-			782,063			
Total investments with a maturity	87,807,886	\$		\$	-	\$		\$ 87,807,886			
Common and preferred stocks	47,142,510			'		'					
Alternatives	12,644,885										
Total investments	\$147,595,281										

Credit Risk - Credit quality can be a depiction of potential variable cash flows and credit risk. The credit rating reported is a weighted average of the Standard & Poors ratings of all Foundation holdings. The Foundation does not have a formal investment policy that limits its investment choices in regard to credit quality ratings.

Interest Rate Risk - Investments with interest rates that are fixed for longer periods are likely to be subject to more variability in their fair values as a result of future changes in interest rates. The Foundation's investment policy limits investing in any issuance with a maturity of over 30 years and requires the overall portfolio average life to be less than 15 years as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk - Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the Foundation will not be able to recover the value of the investments that are in the possession of an outside party. The Foundation does not have a formal investment policy for custodial credit risk in regard to the custody of the Foundation's investments.

Concentration of Credit Risk - Although investments intrinsically carry credit risk, when investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The Foundation's investment policy limits to 3 percent of the total portfolio fair value the amount the Foundation may invest in any one issuer.

Uniform Prudent Management of Institutional Funds Act - The Board of Directors of the Foundation has interpreted the State of Utah's Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

Investment Return Objectives, Risk Parameters and Strategies - The Foundation has adopted investment and spending policies, approved by the Board of Directors, for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment funds while also maintaining the purchasing power of those endowment assets over the long-term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of 4-5 percent, while growing the funds if possible. Therefore, the Foundation expects its endowment assets, over time, to produce an average rate of return of approximately 8 percent annually. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to not expose the fund to unacceptable levels of risk.

Spending Policy - The Foundation has a policy of appropriating for distribution each year 4-5 percent of its endowment fund's moving-average fair value of the prior 3 years through the calendar year-end proceeding the fiscal year in which the distribution is planned. In establishing this policy, the Foundation considered the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor-restrictions, and the possible effects of inflation. The Foundation expects the current spending policy to allow its endowment funds to grow at a nominal average rate of 3 percent annually, which is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets as well as to provide additional real growth through investment return.

Fair Value Measurements (See UVU Foundation Note 6)

A description of the valuation methodologies used to determine fair value for the assets measured is as follows:

<u>Debt and equity securities classified in Level 1</u> – Valued using prices quoted in active markets for those securities.

<u>Debt and equity securities classified in Level 2</u> – Valued using the published fair value per share (unit) for each Equity or Mutual fund. These investments typically trade in inactive markets but are valued based on significant other observable inputs, such as quoted market prices.

<u>Equity securities classified as Level 3</u> – Valued manually using various sources of significant unobservable inputs, such as issuer, investment manager, or default price if a price is not provided.

<u>Investments valued using the net asset value (NAV) per share (or its equivalent)</u> – GASB Statement 72 allows for the use of net asset value to "establish the fair value of an investment that does not have a readily determinable fair value". These are considered Alternative Investments and, generally do not have readily obtainable market values, and take the form of limited partnerships. The Foundation values these investments based on information provided by investment managers, such as the audited financial statements of these partnerships. If June 30 valuations are not available, the value is progressed from the most recent available valuation, taking into account subsequent calls and distributions.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Foundation's assets at fair value at June 30, 2023:

			Fair Value Measurements at Reporting Date Using						
			Quo	ted Prices in					
			Activ	e Markets for					
				Identical	Sign	nificant Other	S	ignificant	
			Ass	ets/Liabilities	Obs	ervable Inputs	Un	observable	
	1	Fair Value	(Level 1)			(Level 2)	Inputs (Level 3)		
PTIF	\$	78,553,972			\$	78,553,972			
Money market accounts		782,063		782,063		-		-	
Common and preferred stocks		47,142,510		9,325,071		36,328,838		1,488,601	
Mutual funds		8,471,851		1,693,170		5,506,280		1,272,401	
Total investments by fair value level		134,950,396	\$	11,800,304	\$	120,389,090	\$	2,761,002	
Investments Measured at Net Asset Value	(NAV)							
Hedge funds	` '	7,944,393							
Private equity		2,636,196							
Private natural resources		741,352							
Private real-estate		1,322,944							
Total investments measured at NAV		12,644,885							
Total investments	\$	147,595,281							

Alternative investments, managed by external advisors, include investments in partnerships with investments focused on fixed income, natural resources, and various hedging investments. These investments are not readily marketable and are reported at fair value utilizing the most current information provided by the external advisor, subject to assessments that the information is representative of fair value.

Alternative investments generally have limited redemption options for the Foundation. The majority of these investments require 14 to 60 days' notice prior to any amount being redeemed. Two investments have no redemption option and may make future capital contribution calls and/or make distributions to the Foundation. These two funds' maturities/liquidations are currently unknown as are the amounts of any future capital contributions calls or distributions. The Foundation's total amount held in these two investments, at fair value, is \$2,064,296 at June 30, 2023.

The following table presents the unfunded commitments, redemption frequency (if currently eligible), and the redemption notice period for the Foundation's alternative investments measured at NAV, as of June 30, 2023:

			Investments Measured at Net Asset Value (NAV)						
				Jnfunded	Redemption	Redemption Notice			
	F	Fair Value	Commitments		Frequency	Period

<u>Investment in UVU Student Housing LLC</u> (see UVU Foundation Note 9)

In fiscal year 2017, the Foundation invested \$2,000,000 for a 43.245 percent interest in Palos Verdes Drive, LLC. In Fiscal Year 2020, this interest was reinvested in a new entity, UVU Student Housing, LLC, in which the Foundation holds a 4.909% ownership interest. This investment is increased or decreased with the Foundation's proportionate share of the profits or losses, as well as distributions, using the equity method of accounting. The Foundation recorded a gain of \$1,834,282 related to this investment for the year ended June 30, 2023. The current value of the investment at June 30, 2023 is \$7,433,374.

On Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Trustees, Audit Committee and Dr. Astrid Tuminez, President Utah Valley University

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Utah Valley University (University) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated January 25, 2024. Our report includes a reference to other auditors who audited the financial statements of Utah Valley University Foundation, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or to detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph

of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we and the other auditors did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to *Utah Code* Title 63G Chapter 2, this report is a matter of public record, and as such, its distribution is not limited.
