# PRESIDENT'S MESSAGE

Congratulations to the Class of 2024! My cabinet and I often refer to commencement as the “happiest day of the year.” This is truly the case. Your hard work and countless sacrifices have paid off. Thank you for believing in your dreams and pursuing higher education as a pathway to realizing those dreams. We celebrate you!

1

Spring is my favorite time of year, not just because of the blossoms but because of graduation. I had never experienced the changing of seasons until I came to the United States in late 1982. Growing up in the Philippines, I lived in a constant state of sunshine, humidity, and rainstorms. Now, living in Utah, where we get to experience all four seasons, I've come to appreciate the timeless lessons of change.

You are transitioning into a new stage of life. Just as the seasons change from one to the next, you have already adapted and grown through the various phases of your academic and personal lives. As Wolverines, you embraced change. You adapted to learning in a post-pandemic world. Each season has brought its own lessons, challenges, and triumphs, shaping you into the accomplished graduates that you are today.

When you face adversity in your life, draw strength from the resilience you cultivated throughout your academic journey. Remember those who supported and inspired you: family, professors, advisors, mentors, and peers. You belong to a remarkable community. UVU can continue to support you for years to come. Stay connected as our proud alumni – others will look to you as they begin their journeys at UVU.

Your graduation is the beginning of new possibilities. Go forth with courage and curiosity. You matter and your contributions matter. Inside you are other mighty dreams that will unfold as you move from season to season in your life. Remember the UVU core values of exceptional care, exceptional accountability, and exceptional results. These values will serve you well.

You make me proud as your president. Congratulations and Godspeed!

## JAMIE KERN LIMA

*Honorary Doctorate of Business*

4

**JAMIE KERN LIMA** is an entrepreneur who founded the makeup and skincare company IT Cosmetics in her tiny Studio City, California apartment. The company grew into the largest luxury makeup brand in the country, and she later sold it to L'Oréal for \$1.2 billion and became the company's first female CEO in its 100+ year history.

Lima's entrepreneurial journey in the cosmetics industry was not easy. She took no salary for the first three years, received countless rejections from retailers and investors, and worked 100+ hours per week to keep her dream alive. Her passion, unremitting perseverance, hard work, and belief eventually turned the rejections into sales and contracts.

Before coming to an agreement with L'Oréal, she presented and sold her products on more than 1,000 live shows on QVC, eventually building the largest beauty brand in the channel's history. IT Cosmetics has become a top-selling brand at Sephora, Ulta Beauty, and Macy's. She is now on the Forbes list of American's Richest Self-Made Women.

While Lima is seen as living the American dream, she too has struggled like everyone else. Before her company became a reality, she worked as a waitress at Denny's and thought about giving up many times during the entrepreneurial phase of her business.

She has lived a lifelong journey of rejections and has battled her way through years of what she calls "self-doubt, body-doubt, and God-doubt." She was given away at birth and adopted and has been on a journey of "learning to believe in her purpose, on purpose and for a purpose, and [that she is] worthy, lovable, and enough."

Lima is also a New York Times bestselling author. She wrote "Believe IT: How to Go from Underestimated to Unstoppable," to stellar reviews, and recently released a new book titled "Worthy: How to Believe You Are Enough and Transform Your Life." It came out in February 2024 and is already in its fifth printing. She is donating 100% of the proceeds from her books to charitable causes.

She works with many philanthropic partners, including Look Good Feel Better®, where IT Cosmetics has donated over \$40 million in product and funds to help women face the effects of cancer with confidence. She has also funded leadership training in more than 100 prisons and shelters across the United States.

Lima is passionate about inspiring and mentoring entrepreneurs, building businesses, and making a difference in the lives of women and girls. As a highly sought-after speaker, she loves sharing stories of inspiration, underestimation, rejection, overcoming self-doubt, and never giving up. She has been a guest teacher on “The Life You Want” class on “Live with Oprah Winfrey.”

Lima has been featured on “Good Morning America,” the “Today” show, “CBS This Morning,” “Megyn Kelly Today,” “Nightline,” and “Joel Osteen.” She has received critical acclaim in publications including The New York Times, Forbes, People, Allure, Marie Claire, Shape, Glamour, Cosmopolitan, New York Magazine, and The Wall Street Journal.

Before starting IT Cosmetics, Lima was an award-winning TV news anchor. She graduated valedictorian with a 4.0 GPA from Washington State University and received her MBA from Columbia University in New York City, where she was also selected by her peers as class speaker. She is married to Paulo Lima, whom she met in a statistics class at Columbia. They are the parents of two children.

# PROGRAM NOTES

## ACADEMIC REGALIA

13

Academic regalia has its beginning in medieval Europe, where clergymen draped themselves in heavy caps, gowns, and robes for warmth in unheated buildings. In those days, the Church of England operated schools, and the priests served as teachers. Church attire, then, became scholarly attire.

When education and religion began to follow separate paths, much of the pomp and circumstance of the church were retained in academic ceremonies. Each university or college developed its own commencement and a different wardrobe for its faculty and students.

Europeans brought their popular traditions to the New World, and in 1642, America experienced its first commencement at Harvard University.

To avoid confusion in the color and style of academic clothing, representatives from most American universities met in 1895 to consider a uniform code for ceremonial academic attire. The result was the Academic Costume Code, which is still in effect today. About 98% of American institutions adopted the code, which covers three main areas: caps, gowns, and hoods.

The mortarboard, or Oxford cap, was introduced in the 1890s and consists of a loosely fitting headpiece with a flat, square top. The code allows for one exception: a soft cap.

Black tassels may be used for any degree. Gold and metallic tassels are reserved for doctoral degrees and governing officials. (At UVU, black tassels distinguish certificates, diplomas, and associate degrees, while tassel colors for bachelor's and master's degrees are in accordance with the major.)

Academic robes are usually black, although they may be the color of the institution. The bachelor's gown is simply constructed in straight lines. A master's gown comes with stitched, pointed sleeves. Doctoral degree holders' robes are adorned with velvet panels on the front and neck and three bars of velvet on the bell-shaped sleeves.

Probably the most ornate piece of academic costume, and the most informative to the trained eye, is the academic hood. Hood size denotes degree level; the doctoral degree holder wears the largest hood. Velvet strips in the school's color are sewn into the lining. Each academic hood color represents a different discipline.

## PRESIDENTIAL MACE

In early times, maces were weapons intended to protect a king or other royal figure. From its seminal role as a symbol of military command, the ceremonial mace has evolved to represent the authority of the presidential office. During special occasions, such as commencement, a ceremonial mace-bearer carries the artifact.

UVU's presidential mace was handcrafted from wood from every continent except Antarctica, signifying the six continents represented by UVU students. Its steel rings reflect UVU's deep roots in the trades, as well as early ties to Utah Valley's steel industry. Each seal represents a stage of UVU's growth, beginning as a tiny vocational school and continuing through today as the largest university in the state.

After receiving her associate degree from Weber State University, Barnard decided to transfer to UVU because of the university's dance education program. She said UVU helped her not only achieve her goal of becoming a dance teacher but also helped her become an advocate for dance as an art form and as a conduit for healing. Barnard credits her husband, Chandler, for being there for her through thick and thin. She is an avid hiker and loves backpacking, rafting, and basically anything outdoors.
