# How do I use the Academic Programs dashboards?

Academic Programs information is on the [Key Performance Indicators](#) page of the [Institutional Research](#) website.

These dashboards come in two different styles: (1) graphs showing 5-year *trends*, and (2) graphs showing 5-year *percentages*. Although every dashboard has different data, they all follow the basic format in the example below.

## Example of a 5-Year Trend (navigation information in red below)

To Drill Down, click from the list the hand is pointing, such as "School of Education"

To go "Back"

Go back to colleges page

## Example of a 5-Year Percentage (navigation information in yellow below)
