

# UVU Credit through Camp Williams

## Basic Information for all Students at Camp Williams

### Earn University Credit with Utah Valley University

Utah Valley University (UVU) and Camp Williams have a partnership that allows you to earn university credit for your intelligence course. You are not required to do additional coursework for the credits—you just need to sign up and register through UVU.

UVU is a regionally-accredited university located in Orem, UT (about 30 minutes from Camp Williams). UVU is the only institution in the area with degrees in Intelligence Studies and National Security.

### How to Do the Credits

In the first few days of class, a group of representatives from UVU will come and present to you. They will have admission applications.

To start the process, submit your application and a \$35 admission fee to the UVU representatives by the end of Phase 1 of your course.

You will be admitted as a UVU student and then given instructions on how to register and pay tuition. The registration and tuition payment is all done online.

The courses appear as UVU credits on your UVU transcript. They receive grades like a typical college course. Grades are provided by your Camp Williams instructors and are based on your performance in your intelligence course. Grades will show up on your UVU transcript at the end of UVU's semester.

### How the Credits Apply to a Degree at UVU

To earn a degree from UVU, you must meet the following requirements:

- Complete all required classes
- Meet institution credits: 20 UVU credits for an Associate and 30 UVU credits for a Bachelor's

These Intelligence Studies credits are UVU institution credits. Additional institution credits can be completed online. To qualify as UVU institution credits, they must be listed on a UVU transcript with a UVU-awarded grade—online classes through UVU meet this requirement.

A simple breakdown of two degrees that use the Intelligence Studies credits is below. For a full list of required classes, see the catalog: [uvu.edu/catalog](http://uvu.edu/catalog)

#### Associate in Science – Intelligence Studies

Degree Area	Types of Classes	Credits	Classes
General Education	English, math, science, humanities, etc.	35	12
Intelligence Studies Core	<b>Intelligence Studies</b>	15	5
General Electives	Anything college-level, including <b>Intel Studies</b>	10	4
		60	21

#### Bachelor of Science – National Security Studies

Degree Area	Types of Classes	Credits	Classes
General Education	English, math, science, humanities, etc.	35	12
National Security Core	National security, political science	42	14
National Security Electives	National Security-related, including <b>Intel Studies</b>	28	10
General Electives	Anything college-level, including <b>Intel Studies</b>	15	5
		120	41

## How a Transfer Degree Applies

If you have already completed an Associate and/or Bachelor's degree at a regionally-accredited institution, you may qualify for an Associate degree at UVU right after completing the Intelligence Studies credits.

With a transfer degree, UVU will automatically waive most General Education. The exceptions are:

- English (your degree must have a class equivalent to ENGL 2010)
- Math (your degree must have a class equivalent to algebra, quantitative reasoning, or statistics)
- American Institutions (your degree must have a class equivalent to history/political science)

Along with meeting each class requirement, you will also need to meet the UVU institution credit requirement—20 UVU credits for an Associate degree and 30 UVU credits for a Bachelor's degree.

We cannot guarantee that you will qualify for the Associate degree at UVU based on a transfer degree. The full credit and degree evaluation process generally takes a minimum of 6 weeks. The deadline to do the UVU credits is the end of your class's Phase 1, so you won't know your degree eligibility until after the credit registration deadline has passed.

If you decide to do the credits and want to see your degree eligibility, you need to send all prior college credit (official transcripts, test scores, etc.) to UVU. More information can be found on [uvu.edu/transfer](http://uvu.edu/transfer).

## UVU Credit Cost Breakdown and Comparison

The tuition cost for these credits is reduced by 90%. You will pay just \$20 per credit.

Below is a tuition comparison of public Utah universities, UVU, and the Intelligence Studies credits.

School	Resident Tuition and Fees for 15 Credits*	Non-Resident Tuition and Fees for 15 Credits*
<a href="#">University of Utah</a>	\$4,750	\$15,066
<a href="#">Utah State University</a>	\$3,829	\$11,098
<a href="#">Southern Utah University</a>	\$3,384	\$10,292
<a href="#">Weber State University</a>	\$2,993	\$7,984
<a href="#">Utah Valley University</a>	\$2,910	\$8,285
UVU Intelligence Studies Credits	\$300	\$300

\*Tuition for the 2019-2020 academic year

Intelligence Studies credits through Camp Williams are the only credits offered at a reduced rate. If you decide to continue taking classes at UVU, you will pay standard tuition.

## Tuition Assistance and the GI Bill

Because the Intelligence Studies credits are available at a reduced rate, you will not be able to use tuition assistance or the GI Bill to pay for them. But if you continue to take classes at UVU you can use tuition assistance or the GI Bill to cover standard tuition.
