

Disabling AI Content Detection Option

By default, the AI Detection feature is enabled. At any time, you can change the setting to enable/disable the AI detection feature.

Step-by-step instructions on how to turn off the AI Content Detection Option:

1. Go into your Canvas class.
2. Go to your assignment
3. Click the “**Edit**” button.
4. Scroll down to the “**Plagiarism Review**” section.
5. Click once on the toggle switch to turn off the “**AI Content Detection**” – it should turn **black**. (**Black** color means it’s turned **off**. **Blue** color means it’s turned **on**.)

6. Scroll to the **bottom** of the page.
7. Click on the green “**Save**” button.
