## ***Course Requirements***

### **Course Assignments, Assessments, and Grading Policy**

Participation: 15%

UVU policy requires a *minimum* of six hours of outside work for every three hours of time spent in lecture (see <https://www.uvu.edu/catalog/current/policies-requirements/academic-policies-and-standards.pdf>). Participation in class is expected to reflect that level of engagement. I will give you assignments in class that encourage and measure your participation. These will be used to give you your participation score.

Weekly Assignments: 50%

This class fulfills one of your “Writing Enriched” graduation requirements, so it will be more writing-intensive than other classes. There will be at least one small assignment due every week throughout this semester. Most of these are fieldnote assignments you will write based on your original ethnographic observations. All short writing assignments will build toward your two major writing assignments.

Methods Quiz: 5%

You will take one short methods exam to test your knowledge of basic methodological concepts.

AI programs are not a replacement for your human creativity, originality, and critical thinking. Writing, thinking, and researching are crafts that you must develop over time to develop your own individual voice. At the same time, you should learn how to use AI and in what instances AI can be helpful to you.

**The use of generative AI tools (e.g. ChatGPT, Google Bard, etc.) is permitted in this course for the following activities:**

Brainstorming and refining your ideas;  
Fine tuning your research questions;  
Finding information on your topic;  
Drafting an outline to organize your thoughts; and  
Checking grammar and style.

**The use of generative AI tools is not permitted in this course for the following activities:**

Impersonating you in classroom contexts, such as by using the tool to compose discussion board prompts/responses assigned to you or content that you put into a Teams/Canvas chat.  
Completing group work that your group has assigned to you, unless it is mutually agreed upon that you may utilize the tool.  
Writing a draft of a writing assignment.  
Writing entire sentences, paragraphs or papers to complete class assignments.  
You are responsible for the information you submit based on an AI query (for instance, that it does not violate intellectual property laws, or contain misinformation or unethical content). Your use of AI tools must be properly documented and cited in order to stay within university policies on academic honesty.

## Using Remote Testing Software

This course does not use remote testing software.

This course uses remote testing software. Remote test-takers may choose their remote testing locations. Please note, however, that the testing software used for this may conduct a brief scan of remote test-takers' immediate surroundings, may require use of a webcam while taking an exam, may require the microphone be on while taking an exam, or may require other practices to confirm academic honesty. Test-takers therefore shall have no expectation of privacy in their test-taking location during, or immediately preceding, remote testing. If a student strongly objects to using test-taking software, the student should contact the instructor at the beginning of the semester to determine whether alternative testing arrangements are feasible. ### **Academic Integrity**

At Utah Valley University, faculty and students operate in an atmosphere of mutual trust. Maintaining an atmosphere of academic integrity allows for free exchange of ideas and enables all members of the community to achieve their highest potential. Our goal is to foster an intellectual atmosphere that produces scholars of integrity and imaginative thought. In all academic work, the ideas and contributions of others must be appropriately acknowledged and UVU students are expected to produce their own original academic work.

Faculty and students share the responsibility of ensuring the honesty and fairness of the intellectual environment at UVU. Students have a responsibility to promote academic integrity at the university by not participating in or facilitating others' participation in any act of academic dishonesty. As members of the academic community, students must become familiar with their [rights and responsibilities](#). In each course, they are responsible for knowing the requirements and restrictions regarding research and writing, assessments, collaborative work, the use of study aids, the appropriateness of assistance, and other issues. Likewise, instructors are responsible to clearly state expectations and model best practices.

Further information on what constitutes academic dishonesty is detailed in [UVU Policy 541: Student Code of Conduct](#).
