Educational Talent Search

FROM THE COORDINATOR

Congratulations, high school seniors! Completing this significant chapter of your educational journey is a testament to your hard work, perseverance, and dedication. As you stand on the brink of new opportunities, whether in higher education, vocational training, or other ventures, take a moment to reflect on all you've achieved. Each challenge you've faced and overcome has equipped you with invaluable skills and resilience that will serve you well in the future.

The importance of education cannot be overstated. It is not merely a pathway to better job prospects but a vital tool for personal growth and understanding the world around you. Education empowers you to think critically, solve problems, and make informed decisions. It opens doors to new experiences and perspectives, fostering a sense of curiosity and a lifelong love of learning. As you move forward, remember that education is a continuous journey. Embrace every opportunity to learn and grow, for it is through education that you can shape not only your own future but also contribute meaningfully to the community and the world at large. Congratulations once again, and best of luck in all your future endeavors!

BETTER FAFSA UPDATE

The 2024-2025 FAFSA form release was delayed by three months to December 30, 2023, causing significant delays in financial aid processing for students. Colleges will receive FAFSA data later than usual, which postpones financial aid award notifications until April or May, instead of the typical March. This delay has led some colleges to extend their decision deadlines beyond the traditional May 1 National College Decision Day to accommodate students. Prospective and current students are advised to complete their FAFSA promptly and stay in contact with financial aid offices to navigate the extended timelines effectively.

2024 ETS COLLEGE TOUR TRIP

Weber State University

Utah State University

The University of Utah

Utah Valley University

Brigham Young University

Westminster University

A group of our high school juniors spent three days touring seven campuses plus spending time at the Utah's Natural History Museum on The University of Utah's campus. They also saw the play "Shakespeare in Love" at West Valley Performing Arts Center.

West Valley Performing Arts Center

STEM Field Trip to Clark Planetarium

At the beginning of May, TRiO took our Orem Junior High School students, grades 7-9, to the Clark Planetarium, courtesy of UVU Rise. It was an incredible experience that was both uplifting and educational. The students got to see an informative show about our solar system, spend time in the exhibits, and watch an IMAX. Afterwards, the students shared an astounding number of things they had learned about our universe. It was magnificent to see them light up about all the possibilities with this STEM subject! I am so proud of them and so grateful that we got to have this experience together.
