Priyanka Prem Kumar

Priyanka is a student pursuing her second master's in data science from Indian University, Bloomington, while she already has her Master's in Electronics Engineering from Anna University, India. She has previously worked as a researcher in improving food security and sustainable food systems (SDG 2.4) for smallholder farmers and also working on her research for providing sustainable education (SDG 4), especially for women in the mountainous region. Her research "Assessment of Sustainable Food Systems in Mountain Regions of India Through Climate Smart Agriculture During Covid-19 Pandemic: The Case Study of AI for Rural" has been published in the book "Why It Matters" and was handed over to the UN Dag Hammarskjold library in March 2023 in the Proceedings of the UN International Academic Conference on SDGs "Why It Matters." Also, she was a youth representative speaker of the Asia-Pacific sub-committee of the former conference held in Utah, wherein she was fortunate to speak at the closing ceremony. Priyanka was also part of the UN- Commission of the Status of Women - 67 side event held in New York and spoke in support of mountain women in India and globally.
