DATA SUMMIT
2025

President Astrid S. Tuminez

FEBRUARY 2025

GVU **DIGITAL**
TRANSFORMATION

The background of the slide is a light cream color with a pattern of semi-transparent squares in various shades of green and yellow. These squares are scattered across the page, with a higher density in the top-left and bottom-left corners, and a few isolated squares in the top-right and bottom-right corners. A dark green horizontal bar spans across the middle of the slide, containing the main title.

UVU's Digital Transformation

Mi

crosoft

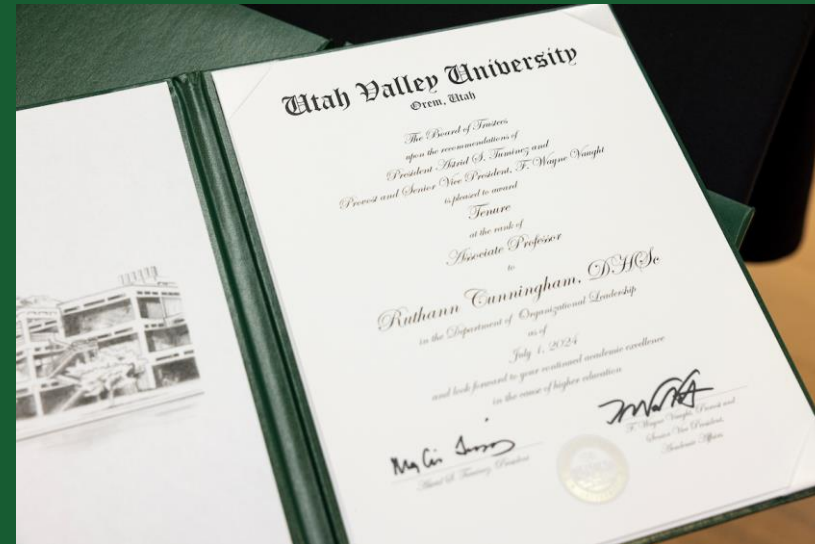

The COVID-19 Silver Lining

Modernizing Faculty Processes

- Old process: Printed binders with extensive documentation.
- New process: Fully digital RTP system.
- Benefits: Saves time, reduces errors, streamlines workflow.

Empowering Students

Student Mobile App Functionalities:

Add/drop classes

UVU
DATA SUMMIT

Strengthening UVU's Digital Backbone

- Upgraded network for better connectivity.
- Faster and more reliable access to online platforms.
- Enhanced IT monitoring for proactive issue resolution.

Revolutionizing Learning Spaces

**Interactive and Hybrid
Learning Models**

**Advanced Technology for
Dynamic Instruction**

**Enhanced collaboration for
in-person and online students**

Not there yet: **Advancing** and **Accelerating** Our Digital Transformation

Data Ecosystem

- Current state: Disorganized, redundant, and underutilized data.
- Need for:
 - Data documentation
 - Redundancy elimination
 - Strengthened governance and security
- Collaboration across all university divisions is essential.
- Data is a Strategic Asset for UVU

AI Impacting Digital Transformation

Transforming Education with AI

“TA in a Box”

- 24/7 AI-powered tutoring assistant.
- Provides real-time academic support.
- Complements faculty efforts.

The Key to AI Innovation

**AI is Only as
Powerful as
the Data it
Uses**

**Clean,
Organized, and
Well-governed
Data is
Essential**

**Collaborative
Effort is
Needed for
Future
Advancements**

1 Milking robot

There are three milking robots here. Looking down the left side you can see one of them. The cows come to get milked themselves as they want to release the milk. Each cow is milked four times a day at the most, so every six hours they can be milked. If they go in before that time, they will be let out straight away. The cows carry a computer chip around their neck so the computer recognizes them. The farmer gets a lot of information from each milking regarding...
