Welcome—Anne Arendt

Parent Site—

- Two items still needing work, the form and the calendar—Nathan will finish work on these items
- Issue with the green Facebook logo—Anne's team will check on
- Marketing gave okay for shooting their own parent pictures for use on the page

Future Student Site—

- All the content is done, just need to move some things around
- Going to use the Hobson's stuff for two more years
- Time machine is fun, need a Fusion script to get it active—Jason will do this since Marketing has the assets.
- Ronnette is going to check all the links, otherwise the site is ready to go.

Maps Project—

- It was decided to recreate a subcommittee to relook at maps. In talking with Corbin, we don't know if we get the rest of the floor plans.

Mobile Update—

- There will be a link ready before the end of February. The focus is on what the mobile user would need to see, what are they using it for.

UVU in the News—

- Time did not permit for this item to be discussed.
